LLOYD'S REGISTER OF SHIPPING
No. 2,
White Lion
Court,
Cornhill
LONDON

1886

LLOYD'S REGISTER OF BRITISH & FOREIGN SHIPPING.

With reference to the accompanying Notice respecting the publication of Lloyd's Register Book for 1887—88, the Secretary will feel obliged by Subscribers kindly informing him at their earliest convenience of any alteration they may wish to have made in the entry of their names in the List of Subscribers.

In the absence of any intimation to the contrary it will as usual be concluded that no alteration is desired, and copies of the Register Book will be prepared accordingly and duly delivered to the respective Subscribers.

In order that the names of new Subscribers may duly appear in the printed List of Subscribers, early notice should be given of intention to subscribe.

2, White Lion Court, Cornhill, London, E.C.

31st January, 1887.

P.T.O.

LLOYD'S REGISTER OF BRITISH AND FOREIGN SHIPPING,

[ESTABLISHED 1834.]

YACHT REGISTER.

1886-87.

NOTICE IS HEREBY GIVEN that this Society's Yacht Register for the year 1886—87, was issued on the 1st May.

It contains, in addition to the Names, Class, and other useful information relating to Yachts classed by the Society, the Names, Dimensions, &c., of all British and Foreign Yachts, the particulars of which are known; also in an Appendix, a list of the various Yacht Clubs and Illustrations of their respective Flags, an Index of Signal Letters, a List of Yachts which have had Names changed, a list of Yachts arranged according to their Tonnage, an Alphabetical List of the Names and addresses of Yacht Owners so far as they can be ascertained, and a List of Builders and Designers, with the Names of Yachts Built or Designed by them.

The Society's rules and suggested scantlings for the Building of Iron, Wood, and Composite Yachts, intended for Classification are comprised in the volume.

The terms of Subscription are half a guinea per copy for individuals or firms; and for Yacht Clubs, Marine Assurance Companies, and other public bodies, not less than two Guineas per annum, for which two copies of the work will be supplied.

By order of the Committee,

B. WAYMOUTH,
Secretary.

LLOYD'S REGISTER OF BRITISH AND FOREIGN SHIPPING.

Telegraphic Address, COMMITTEE, LONDON.

Alterations and Amendments made in the Rules of the Society by the General Committee.

Paragraph 6 of Section 13 of the Rules for Iron Vessels has been amended to read as follows:—

6. It is recommended that the round-up of the beams of all weather decks should not be less than one quarter of an inch per foot of length of beam. In the case of awning-decked steamers, this amount of round-up will be assumed in determining the minimum freeboard, which is required for insertion in the Register Book. And in all other cases where a freeboard is assigned by the Committee, the same round of beam will be assumed in determining the same.

CHARGES FOR INSPECTION OF FORGINGS.

The following scale of charges has been approved by the General Committee for the inspection of forgings for other than new vessels:—

SHIP FORGINGS OR CASTINGS.

For vessels not exceeding 600 tons	£2	2	0
,, over 600 tons but not exceeding 1600 tons...	3	3	0
,, over 1600 tons	4	4	0

ENGINE FORGINGS OR CASTINGS.

For shafts up to 12 inches in diameter	£1	1	0
,, over ,, ,, ...	2	2	0

These fees to be chargeable for the inspection of the whole or any portion of shafting which is not being forged and finished at the works where the engines are being made under the survey of the Society's Officers, and when more than two visits are necessary, to be increased.

N.B.—Travelling expenses are to be charged in the case of both old and new vessels.

By order of the Committee,

BERNARD WAYMOUTH,

Secretary.

Lion Court, Cornhill, London, E.C.
16*th December*, 1886.

LLOYD'S REGISTER OF BRITISH AND FOREIGN SHIPPING,

AND THE

UNDERWRITERS' REGISTRY FOR IRON VESSELS

AMALGAMATED.

NOTICE IS HEREBY GIVEN that it has been mutually resolved by the Committee of Lloyd's Register of British and Foreign Shipping and the Committee of the Underwriters' Registry for Iron Vessels to amalgamate the two Registries.

In accordance with the terms of amalgamation:

(1.) The publication of the "Underwriters' List of Iron Vessels" has been discontinued.

(2.) Vessels holding a Class in the Underwriters' Registry will be entitled to the publication of this Class in future issues of Lloyd's Register Book so long as their Owners comply with the Rules of the Underwriters' Registry (1884-85) relating to Periodical Surveys.

(3.) The information hitherto given in the Supplements to the Register Book of the Underwriters' Registry relating to Periodical Surveys, Changes of Owners, &c., will be inserted by posting with type in Lloyd's Register Book, and will also appear in the Supplements.

(4.) In case the Owners of Vessels holding a Class in the Underwriters' Registry only, desire also a class under Lloyd's Register, the Committee of this Society undertake to favourably consider the claims of such Vessels on the documents produced by the Underwriters' Registry, and the necessary surveys as to present condition, with a view to assigning these Vessels the highest possible Class to which they are entitled, free of charge to the Owners. Full allowance will be made for any compensation for deviation from the Rules of Lloyd's Register, and the Vessels given the advantage of any difference in scantlings between the Rules as now existing and those which were in force when the Vessels were built.

The Committee of this Society will employ the Staff of the Underwriters' Registry, so far as may be practicable, in the Survey of Vessels holding a Class in that Registry, and of Vessels now Building or Contracted to be Built to Class therein.

In the interest of the Owners of Vessels Classed in the Underwriters' Registry, some Members of the Committee of that Registry will have seats on Lloyd's Register Committees in London and Liverpool.

All communications respecting Vessels Classed or now Building to Class in the Underwriters' Registry, should in future be addressed to the Secretary to Lloyd's Register, either in London or Liverpool, as may be most convenient.

In the absence of any intimation from Owners of Ships classed in the Underwriters' Registry to the contrary, it will be concluded that they are quite agreeable to the Classes assigned in that Registry being recorded in Lloyd's Register Book as proposed.

By order of the Committee,

B. WAYMOUTH,

SECRETARY.

LLOYD'S REGISTER OF BRITISH AND FOREIGN SHIPPING,
2, WHITE LION COURT, CORNHILL, LONDON,
1*st September*, 1885.

No. 620.

LLOYD'S REGISTER OF BRITISH & FOREIGN SHIPPING.

CHARGES for INSPECTING CASTINGS or FORGINGS as set forth in Notice No. 614.

In order to obviate misunderstanding arising in regard to the responsibility for the Payment of the Fees recently approved by the Committee of this Society for the Inspection of Castings or Forgings, NOTICE IS HEREBY GIVEN that the charges in question, including travelling expenses, will be payable by the Forge or other Company by whom the forgings or castings are made.

By order of the Committee,

B. WAYMOUTH,
Secretary.

LLOYD'S REGISTER

OF

BRITISH AND FOREIGN

SHIPPING.

LLOYD'S REGISTER OF BRITISH AND FOREIGN SHIPPING,

UNITED WITH THE

UNDERWRITERS' REGISTRY FOR IRON VESSELS IN 1885.

ESTABLISHED 1834.

NOTICE.

The Register, which is printed solely for the use of Subscribers, now contains the respective characters and full particulars of Vessels which are classed by LLOYD'S REGISTER OF BRITISH AND FOREIGN SHIPPING, and of those which are classed by the UNDERWRITERS' REGISTRY FOR IRON VESSELS.

It also contains the Names, Dimensions, and other useful particulars of *all* Vessels of 100 tons and upwards registered in the United Kingdom, some of which, although not classed in this Society's Register, may be classed elsewhere.

The conditions regulating the Classification of Vessels in the Register are contained in the Rules.

The Key to the Register precedes the List of Vessels.

LLOYD'S REGISTER

OF

BRITISH AND FOREIGN SHIPPING.

ESTABLISHED 1834.

UNITED WITH THE

UNDERWRITERS' REGISTRY FOR IRON VESSELS IN 1885.

From 1st July, 1886, to the 30th June, 1887.

The REGISTER,—which is printed solely for the information of Merchants, Shipowners, Underwriters, and others, being Subscribers or Members,—contains, in addition to the names, class, and other useful particulars relating to vessels classed by the Society, and those classed by the Underwriters' Registry for Iron Vessels, the names, dimensions, &c., of *all* vessels of 100 tons and upwards registered in the United Kingdom, some of which, although not classed by the Society, may be classed elsewhere.

The conditions regulating the classification of vessels in the REGISTER are contained in the Society's Rules.

The KEY to the REGISTER precedes the List of Vessels.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. *In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request.* *In the same Column* Lv *signifies the classification of the Underwriters' Registry, and the letters a. b. &c., indicate the letters and equipment numbers in Table No. 22.* *In Column 14 a black line with date under it (thus,* 3,85*) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus,* 3,85*) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules.* *The note * prefixed to* ✠ *thus, * ✠, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *, thus A * 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron.* *A ring in red (○) over the figure 1 indicates defects in engines or boilers of Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety.* *In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For **A1**, *printed in Red, see Key.* *BHds.—Bulkheads.* *PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck.* Cem.—*Cemented.* Asp.—*Asphalted.*

LMC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B&MS.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B).* lrp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ✠ thus, *✠, indicates that the Vessel has been built with heavier plating than the Rules now require; the note * thus A * 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted. LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The symbols of class when printed within brackets thus (A1) —, indicate that the class of the Vessel has lapsed for want of Survey.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv *signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to A thus, *A, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡, thus A ‡ 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey. For A 1, printed in Red, see Key.*

BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted.

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The symbols of class when printed within brackets thus (A1) —, indicate that the class of the Vessel has lapsed for want of Survey.

Deep tank a.187ft.112tns & PT.60tns

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ✠ thus, *✠, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡, thus A ‡ 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, *printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted. LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3.85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3.85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *, thus A*1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted.

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The symbols of class when printed within brackets thus (**A1**) —, indicate that the class of the Vessel has lapsed for want of Survey.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. *In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request.* *In the same Column* Lv *signifies the classification of the Underwriters' Registry, and the letters a. b. c, &c., indicate the letters and equipment numbers in Table No. 22.* *In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules.* *The note * prefixed to ⚓ thus, * ⚓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note * thus A * 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron.* *A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety.* *In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For **A 1**, *printed in Red, see Key.* *BHds.—Bulkheads.* *PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck.* *Cem.—Cemented.* *Asp.—Asphalted.*

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. *B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* *✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B).* *lrp.—Large repairs.* *drp.—Damage repairs, of Machinery.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

Footnote * *Classification does not extend to Petroleum fittings.*

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv *signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ✠ thus, *✠, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡, thus A ‡ 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, *printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted.*

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. *In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request.* *In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, &c., indicate the letters and equipment numbers in Table No. 22.* *In Column 14 a black line with date under it (thus, 3.85) indicates that, at that date, the Vessel, from repo defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3.85) indicates that the Class was withdrawn from non-compliance, at that date, und Society's Rules.* *The note * prefixed to ⚓ thus, *⚓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *‡ thus A‡1, that the V has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron.* *A ring in red (O) over the figure 1 indicates defects in engines or boilers Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety.* *In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Sur*

For A1, printed in Red, see Key. *BHds.—Bulkheads.* *PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck.* *Cem.—Cemented.* *Asp.—Asphalte*

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. *B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surv Lloyd's Register.* *✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B).* *lrp.—Large repairs.* *drp.—Damage repairs, of Machi*

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. *In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request.* *In the same Column* Lv *signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22.* *In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules.* *The note * prefixed to ⩓ thus, * ⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡, thus A ‡ 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron.* *A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety.* *In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A 1, printed in Red, see Key. *BHds.—Bulkheads.* *PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck.* Cem.—Cemented. Asp.—Asphalted.

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. *B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* *✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B).* *lrp.—Large repairs.* *drp.—Damage repairs, of Machinery.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ✠A thus, *✠A, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *, thus A*1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For **A1**, *printed in Red, see Key.* *BHds.—Bulkheads.* *PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck.* Cem.—*Cemented.* Asp.—*Asphalted.*

LMC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B&MS.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus,* ✠LMC., ✠N&B). lrp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The symbols of class when printed within brackets thus (**A1**)—, indicate that the class of the Vessel has lapsed for want of Survey, and when printed within brackets thus (**A1**) (—), that the class has been withdrawn by request of the Owners.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date; with the Society's Rules. The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡, thus A ‡ 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey. For A1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted. LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠N&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ✠ thus, *✠, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡, thus A ‡ 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted.

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. *In Column 13 three dots ... indicate that the Vessel was at a time Classed, but that the Class has been withdrawn at Owner's request.* *In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, &c., indicate the letters and equipment numbers in Table No. 22.* *In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from repeated defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules.* *The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *‡ thus A ‡ 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron.* *A ring in red (O) over the figure 1 indicates defects in engines or boilers of Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety.* *In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey. For A 1, printed in Red, see Key.*

BHds.—Bulkheads. *PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck.* *Cem.—Cemented.* *Asp.—Asphalted.* *LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* *B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B).* *lrp.—Large repairs.* *drp.—Damage repairs, of Machinery.*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note * thus A * 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (○) over the figure 1 indicates defects in engines or boilers of Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey. For A 1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted. LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to A thus, *A, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡, thus A ‡ 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted.

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3.85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3.85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *, thus A *1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey. For A1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted. LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠NE&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to A thus, *A, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *, thus A * 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted.

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠NE&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv *signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡, thus A ‡ 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special survey.*

For A1, *printed in Red, see Key.* *BHds.—Bulkheads.* *PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck.* Cem.—*Cemented.* Asp.—*Asphalted.*
LMC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B&MS.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus,* ✠ LMC., ✠ NE&B). lrp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots … indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv *signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note * thus A * 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, *printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted. LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠NE&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The symbols of class when printed within brackets thus (A1) —, indicate that the class of the Vessel has lapsed for want of Survey.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3.85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3.85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡, thus A ‡ 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted.

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The symbols of class when printed within brackets thus (A1) —, indicate that the class has been withdrawn by request of the Owners.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships, or machinery, repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage or from other causes, rests with the Owners, Masters, or Agents.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3.85) indicates that, at that date, the Vessel, from defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3.85) indicates that the Class was withdrawn from non-compliance, at that date, Society's Rules. The note * prefixed to ✠ thus, *✠, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡ thus A ‡ 1, that the has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (○) over the figure 1 indicates defects in engines or boile Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special S*

For A1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—As

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Sur Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus ✠ LMC. ✠ N.E&B). lrp.—Large repairs. drp.—Damage repairs, of Ma

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The symbols of class when printed within brackets th··· (A1) —, indicate that the class of the Vessel has lapsed for want of Survey.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from age or defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, under Society's Rules. The note * prefixed to ✠ thus, *✠, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *2 thus A *2 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or boilers of Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted.

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *1 thus A *1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey. For A1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted. LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters A, &c. indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3.85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3.85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note * thus A * 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, *printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted.*

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv *signifies the classification of the Underwriters' Registry, and the lett &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date Society's Rules. The note * prefixed to ✠ thus, *✠, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *, thus A *, that has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or b Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Specia*

For A1, *printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—*

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Sur Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lrp.—Large repairs. drp.—Damage repairs, of M

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Ves time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, t defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that Society's Rules. The note * prefixed to ⚓ thus, *⚓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡, thus A ‡ 1, has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under S*

For A1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Ccm.—Cemented. Asp

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Enginee Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lrp.—Large repairs. drp.—Damage repairs,

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was time Classed, but that the Class has been withdrawn at Owner's request. In the same Column LV *signifies the classification of the Underwriters' Registry, and the figures &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that Society's Rules. The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡, thus A ‡ 1, has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (○) over the figure 1 indicates defects in engines Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under*

For A 1, *printed in Red, see Key.* *BHds.—Bulkheads.* *PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck.* *Cem.—Cemented.*

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. *B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC, ✠ NE&B).* *lrp.—Large repairs.* *drp.—Damage repairs*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the V time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and th &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at th Society's Rules. The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡, thus A‡ 1 has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engine Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under*

For A1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. A

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engi Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lrp.—Large repairs. drp.—Damage repai

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters A.1, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from non-compliance, at that date, with Society's Rules. The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡, thus A ‡ 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or boilers of Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey. For A1, printed in Red, see Key.*

BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalt.

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters A.1., &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3.85) indicates that, at that date, the Vessel, from repeated defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3.85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *, thus A *, indicates that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or boilers of Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For **A1**, *printed in Red, see Key.* *BHds.—Bulkheads.* *PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck.* *Cem.—Cemented.* *Asp.—Asphalted.*

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. *B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* *✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B).* *lrp.—Large repairs.* *drp.—Damage repairs of Machinery.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The symbols of class when printed within brackets thus (**A1**) (—), indicate that the class has been withdrawn by request of the Owners.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at times Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from repeated defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ⚓ thus, *⚓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *, thus A *, indicates that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or boilers of Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted.

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date Society's Rules. The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡ thus A ‡ 1. that the has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or boiler Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special*

For A1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalt

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lrp.—Large repairs. drp.—Damage repairs of

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The symbols of class when printed within brackets thus (A1) —, indicate that the class of the Vessel has lapsed for want of Survey.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was formerly Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3.85) indicates that, at that date, the Vessel, from defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3.85) indicates that the Class was withdrawn from non-compliance, at that date, with Society's Rules. The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡, thus A ‡ 1, that the has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (Q) over the figure 1 indicates defects in engines or boilers Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special*

For A1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Aspl

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lrp.—Large repairs. drp.—Damage repairs, of Boilers.

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The symbols of class when printed within brackets thus (A1) —, indicate that the class of the Vessel has lapsed for want of Survey.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv *signifies the classification of the Underwriters' Registry, and the letters, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3.85) indicates that, at that date, the Vessel, from non-compliance, at that date defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3.85) indicates that the Class was withdrawn from non-compliance, at that date Society's Rules. The note * prefixed to ⩓ thus, * ⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡, thus A ‡ 1, that the has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (○) over the figure 1 indicates defects in engines or boilers. Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special For A1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Aspha LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lrp.—Large repairs. drp.—Damage repairs.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

2 or 3 Dks.—Two or three Decks laid. 2 or 3trB.—Two or three tiers of Beams with or without Decks on them. F.D.—Flush deck. R.Q.D.30ft.—Raised quarter deck 30 feet long. B.D.30ft.—Bridge Deck 30 feet long. P.30ft.—Poop 30 feet long. F.30ft.—Forecastle 30 feet long. Brk16tons.—Break 16 tons. C.—Compound. I.—Inverted. H.—Horizontal. O.—Oscillating. D.—Diagonal. L.—Lever. The figures after Cy. represent diameter of Cylinders and length of Stroke in inches. Figures before lb.—the Boiler pressure in pounds per square inch. HP with figures prefixed—the Horse Power. When stated is taken from the Ship's Register, but is, of course, no indication of the real power. N.E.&B.—New Engines and Boilers. F.&Y.M.—Felt and Yellow Metalled. I.B.—Iron Bolts. G.I.B.—Galvanized Iron Bolts. c.f., C.F., and C.F.—Copper Fastened. C.B.—Copper Bolts instead of Treenails, per Section 46. lrp.—Large repairs. srp.—Some repairs. drp.—Damage repairs. ND.—New Deck. NTsds.—New Top-sides. NW.—New Wales. WS.—Wales Sheathed. NKl.—New Keel. NKlsn.—New Keelson. retrld.—Retreenailed. Mat.—Materials. Rest.—Restored. Cont.—Continued. H.T.—Half-time Survey. S.S. and s.s.—Special Survey. L.A.&C.P. and A.&C.P.—Anchors and Chains Proved.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. *In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request.* *In the same Column* Ln *signifies the classification of the Underwriters' Registry, and the letters &c., indicate the letters and equipment numbers in Table No. 22.* *In Column 14 a black line with date under it (thus, 3.85) indicates that, at that date, the Vessel, from defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3.85) indicates that the Class was withdrawn from non-compliance, at that date, with Society's Rules.* *The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *, thus A *, 1, that the has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron.* *A ring in red (○) over the figure 1 indicates defects in engines or boilers.* *Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety.* *In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, *printed in Red, see Key.* *BHds.—Bulkheads.* *PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck.* *Cem.—Cemented.* *Asp.—Asphalt.*

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. *B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* *✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ N.S.&B).* *lrp.—Large repairs.* *drp.—Damage repairs, of a*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The symbols of class when printed within brackets thus (A1) —, indicate that the class of the Vessel has lapsed for want of Survey.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3.85) indicates that, at that date, the Vessel, from defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3.85) indicates that the Class was withdrawn from non-compliance, at that date, Society's Rules. The note * prefixed to ⚓ thus, *⚓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note * thus A * 1, that the has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (○) over the figure 1 indicates defects in engines or boilers Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special*

For A1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalt.

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. *In Column 13 three dots ... indicate that the Vessel was at a time Classed, but that the Class has been withdrawn at Owner's request.* *In the same Column* Lv *signifies the classification of the Underwriters' Registry, and the letters a, &c., indicate the letters and equipment numbers in Table No. 22.* *In Column 14 a black line with date under it (thus, 3.85) indicates that, at that date, the Vessel, from repairs, defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3.85) indicates that the Class was withdrawn from non-compliance, at that date, by the Society's Rules.* *The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *, thus A *, 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron.* *A ring in red (O) over the figure 1 indicates defects in engines or boilers of Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety.* *In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A 1, *printed in Red, see Key.* *BHds.—Bulkheads.* *PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck.* *Cem.—Cemented.* *Asp.—Asphalted.*

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. *B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B).* *lrp.—Large repairs.* *drp.—Damage repairs, of Machinery.*

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. *In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request.* *In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters A, E, &c., indicate the letters and equipment numbers in Table No. 22.* *In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules.* *The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ½, thus ½ 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron.* *A ring in red (○) over the figure 1 indicates defects in engines or boilers of Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety.* *In Columns 1 and 13 the ✠ signifies that the vessel was built under Special survey.*

For **A 1**, *printed in Red, see Key.* *BHds.—Bulkheads.* *PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck.* Cem.—*Cemented.* Asp.—*Asphalted.*

LMC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B&MS.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B).* lrp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. *In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request.* *In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters A 1, &c., indicate the letters and equipment numbers in Table No. 22.* *In Column 14 a black line with date under it (thus, 3.85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 8.85) indicates that the Class was withdrawn from non-compliance, at that date, with Society's Rules.* *The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡ thus A ‡ 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron.* *A ring in red (O) over the figure 1 indicates defects in engines or boilers of Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety.* *In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey. For* A1, *printed in Red, see Key.*

BHds.—Bulkheads. *PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck.* *Cem.—Cemented.* *Asp.—Aspinall's Automatic Gauge.* *LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* *B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* *✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠NE&B).* *lrp.—Large repairs.* *drp.—Damage repairs, of Machinery.*

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv *signifies the classification of the Underwriters' Registry, and the letters s, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3.85) indicates that, at that date, the Vessel, from defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3.85) indicates that the Class was withdrawn from non-compliance, at that date Society's Rules. The note * prefixed to ⚓ thus, *⚓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *, thus A * 1, that the has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (○) over the figure 1 indicates defects in engines or boilers Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special*

For A1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Aspl

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠NE&B). lrp.—Large repairs. drp.—Damage repairs, of

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. *In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request.* *In the same Column* Lv *signifies the classification of the Underwriters' Registry, and the letters &c., indicate the letters and equipment numbers in Table No. 22.* *In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with Society's Rules.* *The note * prefixed to ✠ thus, *✠, indicates that the Vessel has been built with heavier plating than the Rules now require; the note * thus A * 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron.* *A ring in red (○) over the figure 1 indicates defects in engines or boilers; in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety.* *In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, printed in Red, see Key. *BHds.—Bulkheads.* *PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck.* *Cem.—Cemented.* *Asp.—Aspinall.*

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. *B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* *✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B).* *lrp.—Large repairs.* *drp.—Damage repairs, of Boilers.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel has been at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters A, E, I, O, U, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3.85) indicates that, at that date, the Vessel, being free from defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3.85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note * thus A 1 * indicates that she has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or in boilers of Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For **A1**, *printed in Red, see Key.* *BHds.—Bulkheads.* *PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck.* *Cem.—Cemented.* *Aft.—After.*

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. *B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠NE&B).* *lrp.—Large repairs.* *drp.—Damage repairs, of late years.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. *In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request.* *In the same Column* Lv *signifies the classification of the Underwriters' Registry, and the letters a, &c., indicate the letters and equipment numbers in Table No. 22.* *In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from non-compliance with defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules.* *The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *, thus A *, 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron.* *A ring in red (○) over the figure 1 indicates defects in engines or boilers; in Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety.* *In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, printed in Red, see Key. *BHds.—Bulkheads.* *PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck.* *Cem.—Cemented.* *Asp.—Asphalt.*

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. *B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* *✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B).* *lrp.—Large repairs.* *drp.—Damage repairs, of Machinery.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv *signifies the classification of the Underwriters' Registry, and the letters A, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ✠ thus, *✠, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *, thus A * 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, *printed in Red, see Key.* *BHds.—Bulkheads.* *PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck.* *Cem.—Cemented.* *Asp.—Asphalted.*

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. *B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B).* *lrp.—Large repairs.* *drp.—Damage repairs, of Machinery.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv *signifies the classification of the Underwriters' Registry, and the letters a, b, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *, thus A *, 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, *printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted.*

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. *In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request.* *In the same Column* Lv *signifies the classification of the Underwriters' Registry, and the letters a, b, &c., indicate the letters and equipment numbers in Table No. 22.* *In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, ~~3,85~~) indicates that the Class was withdrawn from non-compliance, at that date, until the Society's Rules.* *The note * prefixed to ✠ thus, *✠, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *, thus A *, 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron.* *A ring in red (O) over the figure 1 indicates defects in engines or boilers (if Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety.* *In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, *printed in Red, see Key.* *BHds.—Bulkheads.* *PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck.* *Cem.—Cemented.* *Asp.—Asphalted.*

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. *B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* *✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B).* *lrp.—Large repairs.* *drp.—Damage repairs.* *of Machinery.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters A 1, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ⚓ thus, *⚓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *, thus A * 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey. For A1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted. LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lrp.—Large repairs. drp.—Damage repairs. of Machinery.*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters A, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡, thus A ‡ 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (○) over the figure 1 indicates defects in engines or boilers of Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special survey.*

For A1, printed in Red, see Key. LHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted.

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠NE&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. *In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request.* *In the same Column* Lv *signifies the classification of the Underwriters' Registry, and the letters a. b. c. &c., indicate the letters and equipment numbers in Table No. 22.* *In Column 14 a black line with date under it (thus, 3.85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3.85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules.* *The note * prefixed to* A *thus, *A, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *, thus A *1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron.* *A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety.* *In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For **A1**, *printed in Red, see Key.* *BHds.—Bulkheads.* *PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck.* *Cem.—Cemented.* *Asp.—Asphalted.*

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. *B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* *✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B).* *lrp.—Large repairs.* *drp.—Damage repairs, of Machinery.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The symbols of class when printed within brackets thus (A1) (—), indicate that the class has been withdrawn by request of the Owners.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one times Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c. indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3.85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3.85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *, thus A * 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special survey.*

For A1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted.

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. *In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request.* *In the same Column* Lv *signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22.* *In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules.* *The note * prefixed to* A *thus, *A, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *, thus A * 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron.* *A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety.* *In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, *printed in Red, see Key.* *BHds.—Bulkheads.* *PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck.* *Cem.—Cemented.* *Asp.—Asphalted.* *LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* *B&MS—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ N.E.&B).* *lrp.—Large repairs.* *drp.—Damage repairs, of Masts &c.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The symbols of class when printed within brackets thus (A1) —, indicate that the class of the Vessel has lapsed for want of Survey.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a b &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3.85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3.85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ⚓ thus, *⚓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡ thus A‡1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted.

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ N.E.&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3.85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3.85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ⚓ thus, *⚓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *, thus ⚓*1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, *printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted.*

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. *In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request.* *In the same Column L signifies the classification of the Underwriters' Registry, and the letters a, b, &c., indicate the letters and equipment numbers in Table No. 22.* *In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules.* *The note * prefixed to ✠ thus, *✠, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡, thus A ‡ 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron.* *A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety.* *In Columns 1 and 13 the ✠ signifies that the vessel was built under Special survey.*

For A1, *printed in Red, see Key.* *BHds.—Bulkheads.* *PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck.* Cem.—Cemented. Asp.—Asphalted.
LMC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B&MS.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B).* lrp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to A thus, *A, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡, thus A ‡ 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, *printed in Red, see Key.* *BHds.*—*Bulkheads.* *PBH.*—*Partial Bulkheads or Bulkheads not reaching to the Main Deck.* Cem.—*Cemented.* Asp.—*Asphalted.*

LMC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B&MS.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B).* lrp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 8,86) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ⚓ thus, *⚓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡, thus A ‡ 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey. For A1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted. LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ N E&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters A, E, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡, thus A ‡ 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A 1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalt.

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ NE&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ½, thus A ½ 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey. For A1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted. LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). Irp.—Large repairs. drp.—Damage repairs, of Machinery.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv *signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡ thus A ‡ 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, *printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted.*

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. *In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request.* *In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, &c., indicate the letters and equipment numbers in Table No. 22.* *In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules.* *The note * prefixed to ✠ thus, *✠, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡, thus A ‡ 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron.* *A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety.* *In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, printed in Red, see Key. *BHds.—Bulkheads.* *PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck.* *Cem.—Cemented.* *Asp.—Asphalted.*
LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. *B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* *✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B).* *lrp.—Large repairs.* *drp.—Damage repairs, of Machinery.*

: *The* 12*th*, 13*th*, *and* 14*th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column* 13 *three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column* Lv *signifies the classification of the Underwriters' Registry, and the letters A, &c., indicate the letters and equipment numbers in Table No.* 22. *In Column* 14 *a black line with date under it (thus,* 3.85*) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus,* 3.85*) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to* ✠ *thus,* *✠, *indicates that the Vessel has been built with heavier plating than the Rules now require; the note* ‡, *thus* A ‡ 1, *that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red* (O) *over the figure* 1 *indicates defects in engines or boilers of Steam Ship, or in black* (O) *in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns* 1 *and* 13 *the* ✠ *signifies that the vessel was built under Special Survey.*

For A 1, *printed in Red, see Key.* BHds.—*Bulkheads.* PBH.—*Partial Bulkheads or Bulkheads not reaching to the Main Deck.* Cem.—*Cemented.* Asp.—*Asphalted.*

LMC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B&MS.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus,* ✠ LMC., ✠ NE&B). lrp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. *In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request.* *In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, l, &c., indicate the letters and equipment numbers in Table No. 22.* *In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules.* *The note * prefixed to ✠ thus, *✠, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *, thus ✠ *1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron.* *A ring in red (O) over the figure 1 indicates defects in engines or boilers of Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety.* *In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, printed in Red, see Key. *BHds.—Bulkheads.* *PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck.* *Cem.—Cemented.* *Asp.—Asphalted.*

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. *B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* *✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B).* *lrp.—Large repairs.* *drp.—Damage repairs, of Machinery.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c. indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3.85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3.85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ✠ thus, *✠, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *, thus A *1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (○) over the figure 1 indicates defects in engines or boilers of Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey. For A1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted. LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ N.E.&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at some time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡, thus A‡1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or boilers of Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, *printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalt.*

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots … indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to A thus, *A, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *, thus A *1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, *printed in Red, see Key.* BHds.—*Bulkheads.* PBH.—*Partial Bulkheads or Bulkheads not reaching to the Main Deck.* Cem.—*Cemented.* Asp.—*Asphalted.*

LMC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B&MS.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus,* ✠ LMC., ✠ NE&B). Irp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The symbols of class when printed within brackets thus (A1) —, indicate that the class of the Vessel has lapsed for want of Survey.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. *In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request.* *In the same Column* Lv *signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22.* *In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules.* *The note * prefixed to A thus, *A, indicates that the Vessel has been built with heavier plating than the Rules now require; the note * thus A * 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron.* *A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety.* *In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, printed in Red, see Key. *BHds.—Bulkheads.* *PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck.* **Cem.—Cemented.** **Asp.—Asphalted.**

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. *B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* *✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B).* *lrp.—Large repairs.* *drp.—Damage repairs, of Machinery.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv *signifies the classification of the Underwriters' Registry, and the letters &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3.85) indicates that, at that date, the Vessel, from defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3.85) indicates that the Class was withdrawn from non-compliance, at that date, Society's Rules. The note * prefixed to ✠ thus, * ✠, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡ thus A ‡ 1, that th has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or boil Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special*

For A1, *printed in Red, see Key.* *BHds.—Bulkheads.* *PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck.* *Cem.—Cemented.* *Asp.—A*

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. *B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Su Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus,* ✠ LMC., ✠ N&B). *lrp.—Large repairs.* *drp.—Damage repairs, of M*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The symbols of class when printed within brackets thus (A1)—, indicate that the class of the Vessel has lapsed for want of Survey.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to A thus, *A, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *, thus A *1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted.

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ✠ thus, *✠, indicates that the Vessel has been built with heavier plating than the Rules now require; the note * thus A * 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For **A1**, *printed in Red, see Key.* *BHds.*—*Bulkheads.* *PBH.*—*Partial Bulkheads or Bulkheads not reaching to the Main Deck.* *Cem.*—*Cemented.* *Asp.*—*Asphalted.*

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. *B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B).* *lrp.—Large repairs.* *drp.—Damage repairs, of Machinery.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The symbols of class when printed within brackets thus (**A1**)—, indicate that the class of the Vessel has lapsed for want of Survey.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a. b. c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3.85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3.86) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ✠ thus, * ✠, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡, thus A ‡ 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted.

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

Footnote * *Classification does not extend to Petroleum fittings*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, ~~3,85~~) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note * thus A *1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted.

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ✠ thus, *✠, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *, thus ✠ *1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A 1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted. LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *, thus A *1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For **A1**, *printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted.*

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠NE&B). lrp.—Large repairs. ~~ ~~—Damage repairs, of Machinery.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡, thus A ‡ 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, *printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted.*

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠NE&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. " *In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column* Lv *signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No.* 22. *In Column 14 a black line with date under it (thus,* 3,85*) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus,* 8,85 *) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to* ✠ *thus, * ✠, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡ thus* A ‡ 1, *that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure* 1 *indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns* 1 *and* 13 *the* ✠ *signifies that the vessel was built under Special Survey. For* A 1, *printed in Red, see Key.*

BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted.

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus,* ✠ LMC., ✠NE&B). *lrp.—Large repairs. drp.—Damage repairs of Machinery.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. *In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request.* *In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22.* *In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules.* *The note * prefixed to ✠ thus, *✠, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *, thus A *1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron.* *A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety.* *In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, printed in Red, see Key. *BHds.—Bulkheads.* *PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck.* *Cem.—Cemented.* *Asp.—Asphalted.*
LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. *B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* *✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B).* *lrp.—Large repairs.* *drp.—Damage repairs, of Machinery.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ⚓ thus, *⚓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡, thus A ‡ 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For **A1**, *printed in Red, see Key.* *BHds.—Bulkheads.* *PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck.* *Cem.—Cemented.* *Asp.—Asphalted.*

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. *B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B).* *lrp.—Large repairs.* *drp.—Damage repairs, of Machinery.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 9,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ✠ thus, *✠, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *, thus A*1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted.

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠NE&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. *In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request.* *In the same Column* L*y signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22.* *In Column 14 a black line with date under it (thus, 3.85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3.85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules.* *The note * prefixed to* A *thus, *A, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡, thus A ‡ 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron.* *A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety.* *In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, printed in Red, see Key. *BHds.—Bulkheads.* *PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck.* Cem.—*Cemented.* Asp.—*Asphalted.*

LMC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B&MS.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠NE&B).* lrp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv *signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ✠ thus, *✠, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡, thus ✠‡ 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, *printed in Red, see Key.* *BHds.—Bulkheads.* *PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck.* Cem.—*Cemented.* Asp.—*Asphalted.*

LMC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B&MS.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus,* ✠ LMC., ✠ NE&B). lrp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv *signifies the classification of the Underwriters' Registry, and the letters a. b. c. &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3.85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3.85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ✠ thus, *✠, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *, thus A *, 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For **A1**, *printed in Red, see Key.* *BHds.*—*Bulkheads.* *PBH.*—*Partial Bulkheads or Bulkheads not reaching to the Main Deck.* Cem.—*Cemented.* Asp.—*Asphalted.*

LMC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B&MS.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus,* ✠ LMC., ✠ N.E.&B). Irp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. *In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request.* *In the same Column* Lv *signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22.* *In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,86) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules.* *The note * prefixed to* A *thus, *A, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ½, thus A ½ 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron.* *A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety.* *In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, *printed in Red, see Key.* *BHds.—Bulkheads.* *PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck.* Cem.—*Cemented.* Asp.—*Asphalted.*

LMC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B&MS.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B).* lrp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The symbols of class when printed within brackets thus (A1) —, indicate that the class of the Vessel has lapsed for want of Survey.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv *signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3.85) indicates that, at that date, the Vessel,* from reported defects, *was not entitled to a Character in the Register Book; a red line with date under it (thus, 2.85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to* A *thus, *A, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *, thus A *1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted. LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. *In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request.* *In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22.* *In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules.* *The note * prefixed to A thus, *A, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *, thus A *1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron.* *A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety.* *In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, printed in Red, see Key. *BHds.—Bulkheads.* *PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck.* *Cem.—Cemented.* *Asp.—Asphalted.*

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. *R&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* *✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠LMC., ✠NE&B).* *lrp.—Large repairs.* *drp.—Damage repairs, of Machinery.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The symools of class when printed within brackets thus (A1)—, indicate that the class of the Vessel has lapsed for want of Survey.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85 indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡, thus A ‡ 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For **A1**, *printed in Red, see Key.* *BHds.—Bulkheads.* *PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck.* Cem.—*Cemented.* Asp.—*Asphalted.*

LMC.—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* BEMS.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B).* lrp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ✠ thus, *✠, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡, thus A ‡ 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey. For A1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted. LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lcp.—Large repairs. drp.—Damage repairs, of Machinery.*

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

*** **Additional Ships are inserted in the Supplement at the end of the Register.**

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *, thus A *1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (Q) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted.

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The symbols of class when printed within brackets thus (**A1**) —, indicate that the class of the Vessel has lapsed for want of Survey.

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ✠ thus, *✠, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡ thus A ‡ 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (○) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (○) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For **A1**, *printed in Red, see Key.* *BHds.—Bulkheads.* *PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck.* Cem.—*Cemented.* Asp.—*Asphalted.*

LM...—*Machinery Certified by the Engineer-Surveyors to Lloyd's Register.* B&MS.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ N.E.&B).* lrp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters a, b, c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ✠ thus, *✠, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡, thus A ‡ 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A1, printed in Red, see Key. BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented. Asp.—Asphalted.

LMC.—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Lloyd's Register. ✠ indicates Special Survey of Machinery or Boilers during construction, (thus, ✠ LMC., ✠ NE&B). lrp.—Large repairs. drp.—Damage repairs, of Machinery.

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at one time Classed, but that the Class has been withdrawn at Owner's request. In the same Column L*v signifies the classification of the Underwriters' Registry, and the letters a, b c, &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Book; a red line with date under it (thus, 3,85) indicates that the Class was withdrawn from non-compliance, at that date, with the Society's Rules. The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note ‡ thus A ‡ 1, that the Vessel has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red (O) over the figure 1 indicates defects in engines or boilers of a Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special Survey.*

For A 1, *printed in Red, see Key.* *BHds.*—*Bulkheads.* *PBH.*—*Partial Bulkheads or Bulkheads not reaching to the Main Deck.* Cem.—*Cemented.* Asp.—*Asphalted.*

...—Machinery Certified by the Engineer-Surveyors to Lloyd's Register. B&MS.—*Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer-Surveyors to Register.* ✠ *indicates Special Survey of Machinery or Boilers during construction, (thus,* ✠ LMC., ✠ NE&B). lrp.—*Large repairs.* drp.—*Damage repairs, of Machinery.*

*The 12th, 13th, and 14th Columns left blank, indicate that the Vessel has never been Classed in the Register Book. In Column 13 three dots ... indicate that the Vessel was at time Classed, but that the Class has been withdrawn at Owner's request. In the same Column LV signifies the classification of the Underwriters' Registry, and the letters &c., indicate the letters and equipment numbers in Table No. 22. In Column 14 a black line with date under it (thus, 3.85) indicates that, at that date, the Vessel, from defects, was not entitled to a Character in the Register Book; a red line with date under it (thus,) indicates that the Class was withdrawn from non-compliance, at that date, Society's Rules. The note * prefixed to ⩓ thus, *⩓, indicates that the Vessel has been built with heavier plating than the Rules now require; the note *. thus A *. 1. has been built in excess of the Rules of the Underwriters' Registry, and of extra quality of iron. A ring in red ( ) over the figure 1 indicates defects in engines or Steam Ship, or in black (O) in masts or rigging of a Sailing Ship, imperilling the Ship's safety. In Columns 1 and 13 the ✠ signifies that the vessel was built under Special*

BHds.—Bulkheads. PBH.—Partial Bulkheads or Bulkheads not reaching to the Main Deck. Cem.—Cemented.

For complete explanation of all Abbreviations, &c., *see* Key at commencement of Register.

APPENDIX.

LIST OF VESSELS IN THE REGISTER BOOK

THE NAMES OF WHICH HAVE BEEN CHANGED.

LATE NAME.	PRESENT NAME.
A	
A. Lopez	Patricio de Satrustegui.
A. C. de Freitas	Bankville.
A. C. de Freitas	Etna.
Aardenburg, *formerly* Psyche	Ernst.
Abana	Ashleigh Brook.
Abana	Le Chatelier.
Abana	Niagara.
Abeona, *formerly* Alabama	Odessa.
Aberton, *formerly* Peloro	Juno.
Acacia	Lissabon.
Acadie	Amstelstroom.
Acantha	Tokai.
Actif	Antelope.
Ada Batters	Marie.
Ada Wilson	Alhambra.
Adam Sedgwick	San Michele.
Adelaide Bisso	Colomba Carolina.
Adelaide M.	Livietta.
Adeline Schüll	Elisabetta.
Adjutant	Duart Castle.
Adlar	Romny.
Adria	Augusta.
Affezione, C.	Caterina, S.
Afghan	Chrussakis.
Agnes Holt	Amur.
Agnes M. Lovett	Lothair.
Agnes Muir	Adele.
Agnese	Maryland.
Agostino	Rosa Aurelia.
Agostino D.	Filippo.
Ahoynton	Antela.
Alabama	State of Alabama.
Albatross	Cymba.
Albatross	Mansourah.
Albert Edward	Gerhard.
Albion	Albano.
Albissola, P.	Rosa V.
Alexander	A. C. de Wall.
Alexander	Congo.
Alexandrina	Alphonse & Marie No. 2.
Alfred Vittery	Aventurière.
Algeria	Pennland.
Alice	Acadie.
Alice	Monark.
Alice Lyne	Flora.
Alice Scott	Salvador.
Aline, *formerly* Suffolk	Professor Morse.
Allan Macdonnell	Ada.
Allemannia	Oxenholme.
Allendale	Drina.
Almeria, *late* Maria Louise, *formerly* Almeria	Vasco.
Alpha	La Manche.
Alster	Don Juan.
Altare	Tyrus.
Altofts	Eugène.
Alton	Christiane & Marie.
Altona	Bassano.
Amazon	Persévérant.
Amber Witch	Uller.
Amberwitch	Nellie.
Ambrose	Willowbank.
Ambulant	Werklust.
Amelie	Angela Schiaffino.
American	Allerwash.
Aminta	Pluto.
Amitie	Start Point.
Amsterdam	Edinburgh.
Ancient Briton	Helene.
Anders Knape	Nora.
Anglian	City of Lisbon.
Anisia, *formerly* Corea	Marie Thérèse.
Ann Duthie	Alexandra.
Anna	Cockileekie.
Anna	Ethel.
Anna Elisabeth	Merapi.
Anne Royden	Cornelia Elisabeth.
Anne Smith	Brackley.
Annie Ellison	Vanadis.
Annie Hope	Jeanie Hope.
Annie Maria	Alma.
Antelope	Coral Queen.
Antonie van Haboken	Jan Pieterzoon Koen.
Antonio Ferraro	Mario B.
Antrim	Manxman.
Antverpia	San Juan.
Antwerpen	Khiva.
Apelles	Barunga.
Appin	Bisayas.
Arab	Algérien.
Arabistan	Broederschap.
Ardantiene	Sukune.
Ardencaple	Duke of Connaught.
Ardenconnel	Katinka.
Ardgour	Abril.
Ardgowan	Venezia.
Ards	Hebe.
Arend, *form.* Zeevaard	A. H. van Bergen.
Argyll	Missir.
Ariadne	Gibraltar.
Ariadne	Ville de Messine.
Arieta	Greek Slave.
Arizona	Cambay.
Armeria	Charlotta.
Artemisia Gianello	Albarese.
Arundel Castle	Chittagong.
Arvonia	Cambrian Duchess.
Asiatic	Ambriz.
Asteria	Enrique.
Atalanta	Clifton.
Athanasian	Neptune.
Athenian	Caroline.
Atlas	Antillas.
Auchintoul	La Gaule.
Augustine	Laura Fell.
Aurelia, *form.* Express	Ernestine.
Auriga	Sierra Blanca.
Aurora	Carmelina V.
Aurrera	Madrid.
Australasian	Calabria.
Ava Maria	Teresa Olivari.
Avant	Luigi Serra.
Avila	Claribel.
Aziz, *late* Eugenie, *form.* Princess Dagmar	Riga.
Azorian	Dido.
B	
B. F. Carver	Adelaide Baker.
B. F. Murzi	G. B. Patrone.
Balcarres	Genua.
Ballogie	Kate Forster.
Bamborough	Uranus.
Banca Navale G.	Gamen.
Barbary	Clement.
Barcelona *form.* Kent	Martin Saenz.
Baron Aberdare	Katharine.
Baron Pahlen, *late* Bergen, *formerly* Hankow	Marseilles.
Baron Selborne	Saffi.
Barremman, *form.* The Richard Green	Norma.
Bartolomeo Padre	Padre.
Basingstoke	Rio Tejo.
Beann-Uamha	Juno.
Beatrice	Nora Caine.
Beaufort	Isbjornen.
Behar, *form* Barcelona	Niigata.
Belle Alliance	Maud.
Belle of Dunkerque	Jason.
Bellona	Benbrack.
Belstane	Egero.
Ben Ledi	Runo.
Benalla	Aćoriana.
Benedict	Russ.
Benisaf	Cabo Machichaco.
Benlomond	Sophie Wilhelmine.
Bertha Marion	Arafura.
Bertino	Francesco B.
Beta	Lesbos.
Beth Shan	France Chérie.
Betty, *formerly* Sea Gull	Arietta Zigomala.
Bheinn Bharain	Ben More.
Bianca Borzone	Giovanni Battista Sanguineti.
Biscayan	Nervion.
Bismarck	Ellen Sutton.
Bison	Belize.
Black Swan	Gange.
Bladworth	Essequibo.
Blair Athol	Onso.
Blaydon	Marseille.
Bleville	Ferdinand.
Blodwen	Maranhense.
Blue & White	Erasmina.
Blyth	Ardanaz.
Bordeaux	Petronila R.
Borealis	Marietta Brailli.
Borrowdale	Embiricos.
Borthwick	City of Malaga.
Bortonius	Lawrence.
Bosphorus	Ferntower.
Bothnia	Vera.
Boulogne	Tolka.
Bowen	Manauense.
Branksome Hall	Panama.
Brave Lourmel	Louis.
Brazil	Lady Jocelyn.
Brazilien	Brazilian.
Breadalbane	Bernadotte.
Brecon	Taurida.
Brindisi	Malta.
Bristol, *late* Collina, *formerly* Catalan	Corine.
British Consul	Morialta.
British Enterprise	Annesley.
British India	India.
Britomart	Otac.
Briton	Exinoor.
Bucefalo	Fortunato Repetto.
Buffalo	Donegal.
C	
C. M. L.	Melchior.
C. S. Lemon	G. M. Cairns.
Cabot	Amelia.
Cadiz	Ellora.

LATE NAME.	PRESENT NAME.
Cairo	Candia.
Caldew	San Giuseppe.
Calileo	Juan.
Calliope Nicolopulo	Fergusons.
Callisto	Acapulco.
Cambay	Arvilla.
Camel	Londonderry.
Cape Clear	Tekapo.
Caranjah	Margret.
Cardenas	Bertha.
Carham	Queen of Thanet.

Zurigo, *formerly* Pactus	Melchiorre.

LIST OF OWNERS OF SHIPS

RECORDED IN THE REGISTER BOOK.

1*st JULY*, 1886.

This List consists chiefly of the Names of Managing Owners. It therefore does not include the names of some large Owners of Shipping Property, or form a true indication of the extent to which others are interested in Shipping.

Aaron, William, & Co.
19, South John Street, Liverpool.

The following example illustrates the method by which the additional draught of water to which a vessel should be laden in water, partly salt, may be determined—

A flush deck vessel of 20 feet moulded depth sails from Aberdeen Harbour. To what extent should she be laden beyond the load line disc?

On referring to page 6 of the Freeboard Tables, it will be seen that this vessel should be laden deeper in *fresh* water than in *salt* to the extent of 4 inches. Also a cubic foot of fresh water weighs 1,000 ounces, while a cubic foot of the densest sea water on the British Coast is found to weigh 1,025 ounces, the difference in weight being 25 ounces. The water in Aberdeen Harbour weighs 1,015 ounces per cubic foot, or 10 ounces less than salt water, and as for a difference of 25 ounces in weight per cubic foot the increased immersion is 4 inches, it will be seen that the increased draught of water with which this vessel should leave Aberdeen Harbour is $\frac{10}{25}$ths of 4 inches, or about 1½ inches.

IN THE UNITED KINGDOM.

LIST OF WET DOCKS, QUAYS, ETC.,

IN THE UNITED KINGDOM.

ABERAYRON.

Tidal Harbour.

Length of Quayage	350	feet
Depth of water at high water	12	,,
,, ,, low water	nil	

ABERDEEN.

Victoria Dock.

Length of Dock	2,022	feet
Width of Dock—mean	472	,,
Length of Quayage	4,327	,,
Length of Lock	250	,,
Width of Lock and single entrances	60 feet and 70	,,
Depth of water over sill at ordinary spring tides	22 feet and 26	,,
Depth of water over sill at ordinary neap tides	18 feet and 22	,,

Upper Dock.

(A continuation of Victoria Dock.)

Length of Dock	820	feet
Width of Dock	490	,,
Length of Quayage	1,950	,,

Tidal Harbour.

Length of Harbour	1,720	feet
Width of Harbour	860	,,
Length of Quayage	2,660	,,
Number of Jetties	2	
Depth of water at high water	23	,,
,, ,, low water	14	,,
Landing stage for foreign cattle	150	,,

Albert Basin.

Length of Basin	2,680	feet
Width of Basin	470	,,
Length of Quayage	2,250	,,
Number of Jetties	1	
Depth of water at high water	18	,,
,, ,, low water	9	,,

ABERDEEN—*continued.*

River Dee.

Number of Jetties	2	
Length of Quayage	400	feet
Depth of water at high water	18	,,
,, ,, low water	9	,,

Steam tripod sheers, capable of lifting 50 tons.
Cranes to lift from 3 to 10 tons.

ABERDOVEY.

Tidal Harbour.

Length of Quayage	460	feet
Depth of water at high water	12	,,
,, ,, low water	nil	

ABERYSTWITH.

Tidal Harbour.

Length of Quayage, east side	250	feet
Depth of water at high water	14	,,
,, ,, low water	nil	
Length of Quayage, west side	800	feet
Depth of water at high water	12	,,
,, ,, low water	nil	

ALLOA.

Alloa Wet Dock.

Length of Dock	635	feet
Width of Dock	195	,,
Length of Quayage	1,605	,,
Width of entrance	38	,,
Depth of water over sill at ordinary spring tides	17 ft. 6 in.	
Depth of water over sill at ordinary neap tides	13 ft. 6 in.	

Cranes to lift from 10 to 20 tons per hour—Grain.
Two cranes, 20 to 30 tons per hour each.

Tidal Harbour.

Length of Quayage	about 1,200	feet
Depth at high water	from 9 to 17	feet
,, ,, low water	nil	

APPLEDORE.

Tidal Harbour.

Length of Quayage	760	feet
Depth of water at high water	13 to 15	,,
,, low water	nil	

ARBROATH.

Arbroath Harbour.

Length of Dock	420	feet
Width of Dock	260	,,
Length of Quayage	1,300	,,
Length of entrance (single gate)	70	,,
Width ,,	40	,,
Depth of water over sill, ordinary spring tides	15	,,
Depth of water over sill, ordinary neap tides	11½	,,
Length of Basin	550	,,
Width of Basin	260	,,
Length of Quayage	1,480	,,
Width of entrance	60	,,
Depth of water over sill, ordinary spring tides	15	,,
Depth of water over sill, ordinary neap tides	11½	,,

3 Derrick cranes.

ARDROSSAN.

Ardrossan Wet Dock.

Water area	about 4	acres
Length of Quayage	1,479	feet
Length of Lock	150	,,
Breadth of Lock	38½	,,
Depth of water over sill at ordinary spring tides	18	,,

Outer Tidal Basin.

Vessels 250 feet in length can load in and sail from this Basin, drawing as much as 22 feet.

Inner Tidal Basin.

For passenger steamers and small vessels.
To be deepened and made into a Wet Dock 25 feet over sill at ordinary spring tides.
Cranes to lift up to 20 tons.

AYR.

Ayr Dock.

Length of Dock	600 feet
Width of Dock	300 ,,
Length of Quayage	1,600 ,,
Width of entrance	60 ,,
Depth of water on sill at ordinary spring tides	22 ,,
Depth of water on sill at ordinary neap tides	19 ,,
Length of Basin	300 ,,
Width of Basin	220 ,,
Length of Quayage	600 ,,
Width of entrance	250 ,,
Depth of water at ordinary spring tides	25 ,,
Depth of water at ordinary neap tides	22 ,,

Tidal Harbour.

Length of Quayage	5,000 ,,
Depth of water at ordinary high water	19 ,,
,, ,, low water	9 ,,

Cranes to lift up to 25 tons.
Facilities for loading coals at the rate of 150 tons per hour.

BANFF.

Tidal Harbour.

Length of Outer Basin	290 feet
Width of Outer Basin	190 ,,
Length of Inner Basin	300 ,,
Width of Inner Basin	230 ,,
Water area	about 4 acres
Length of Quayage	1,600 feet
Width of entrance	44 ,,
Depth of water over sill at ordinary spring tides	12 to 14 ,,
Depth of water over sill at ordinary neap tides	9 to 10 ,,

BANGOR, N. WALES.

Tidal Basin.

Length of Tidal Basin	320 feet
Width of Tidal Basin	50 ,,
Length of Quayage	690 ,,
Width of entrance	50 ,,
Depth of water at ordinary spring tides	17 ,,
Depth of water at ordinary neap tides	11 ,,
Length of Quayage outside Tidal Basin	490 ,,

BARMOUTH.

Tidal Harbour.

Length of Quayage	414 feet
Depth of water at high water	13 ,,
,, ,, low water	nil

BARNSTAPLE.

Tidal Harbour.

Length of Quayage	1,000 feet
Depth of water at high water	14 to 16 ,,
,, ,, low water	nil

BARROW-IN-FURNESS.

Buccleuch Dock.

Length of Dock	3,000 feet
Width of Dock	480 ,,
Length of Quayage	2,000 ,,
Timber Wharf	2,000 ,,
Width of entrance	80 ,,
Depth of water over sill at ordinary sping tides	24 ,,
Depth of water over sill at ordinary neap tides	24 ,,

Cranes to lift from 3 to 7 tons.

Belfast and Isle of Man Steamer's Quay.

(Along Walney Channel.)

Length of Quayage	1,200 feet
Depth of water at high spring tides	40 ,,
,, ,, high neap ,,	31 ,,
,, ,, low spring ,,	12 ,,
,, ,, low neap ,,	19 ,,

Cranes to lift 1½ and 5 tons.

Devonshire Dock.

Length of Dock	2,500 feet
Width of Dock	480 ,,
Length of Quayage	2,900 ,,
Timber Wharf and Shipyard	2,700 ,,
Width of entrance	80 ,,
Depth of water over sill at ordinary spring tides	26 ,,
Depth of water over sill at ordinary neap tides	26 ,,

Cranes to lift up to 100 tons.

Basin.

Length of Basin	500 feet
Width of Basin	150 ,,
Length of Quayage	660 ,,
Width of entrance	60 ,,
Depth of water over sill at ordinary spring tides	25 ft. 6 in.
Depth of water over sill at ordinary neap tides	18 feet

Four 4-ton hydraulic capstans at Devonshire Dock entrance.

Ramsden Dock.

(Anchor Line Basin.)

Length of Dock	1,600 feet
Width of Dock	250 ,,
Length of Quayage	3,200 ,,
Length of Lock	750 ,,
Width of Lock	100 ,,
Width of entrance	100 ,,
Depth of water over sill at ordinary spring tides	31 ft. 6 in.
Depth of water over sill at ordinary neap tides	24 feet

Cranes to lift from 1½ to 3 tons.
2 grain shoots with hydraulic lifts, capable of discharging 200 tons in 10 hours.

BARROW-IN-FURNESS—*continued.*

Basin.

Length of Basin	900 feet
Width of Basin	400 ,,
Length of Quayage	400 ,,
Number of Jetties	9
Width of entrance	100 ,,
Depth of water over sill at ordinary spring tides	31 ft. 6 in.
Depth of water over sill at ordinary neap tides	24 feet

Hydraulic cranes to lift 1½ tons.
Hydraulic capstans to lift 5 tons at Ramsden Dock entrance.
Dook lit with electric light.

BELFAST.

Abercorn Basin.

Length of Basin	725 feet
Width of Basin	635 ,,
Length of Quayage	1,370 ,,
Number of Jetties	2

Albert Quay.

Length of Quayage	825 feet

Clarendon Dock.

Length of Dock	900 feet
Width of Dock	200 ,,
Length of Quayage	1,992 ,,
Width of entrance	50 ,,
Number of Jetties	1

Donegal Quay

(Along River).

Length of Quayage	2,300 feet

Dufferin Dock.

Length of Dock	630 feet
Width of Dock	225 ,,
Length of Quayage	1,645 ,,
Width of Entrance	60 ,,
Depth on sill at ordinary high water	22½ ,,
Depth on sill at ordinary low water	21½ ,,

Milewater Basin.

Length of Basin	600 feet
Width of Basin	160 ,,
Length of Quayage	600 ,,

Prince's Dock.

Length of Dock	700 feet
Width of Dock	225 ,,
Length of Quayage	1,716 ,,
Width of entrance	60 ,,

Prince's Quay

(Along River).

Length of Quayage	2,990 feet

Queen's Quay

(Along River).

Length of Quayage	2,100 feet

BELFAST—*continued.*

Spencer Dock.

Length of Dock	600 feet
Width of Dock	550 ,,
Length of Quayage	1,900 ,,
Width of entrance	80 ,,

BERWICK-ON-TWEED.

Tweed Dock.

Length of Dock	412 feet
Width of Dock	340 ,,
Water area of Dock	3½ acres
Number of Jetties	4
Width of entrance	40 feet
Depth of water over sill at ordinary spring tides	18 ,,
Depth of water over sill at ordinary neap tides	15 ,,

1 steam crane to lift 20 tons.
2 hand cranes on quay—Berwick side.

BIDEFORD.

Tidal Harbour.

Length of Quayage	1,122 feet
Depth of water at high water	16 to 18 ,,
,, ,, low water	nil

London and South-Western Railway Company's Wharf.

Length of Quayage	324 feet
Depth of water at high water	16 ,,
,, ,, low water	nil

Cranes to lift from 2 to 10 tons.

BIRKENHEAD.

See LIVERPOOL.

BLYTH.

Blyth Harbour.

Length of Quayage	3,300 feet
Depth of water at ordinary spring tides at 700 feet of the Quayage	28 ft. 6 in.
Depth at remainder of Quay from	24 ft. to 14½ ft.

19 coaling staithes. Can load a steamer of 1,500 tons in 10 hours.

BO'NESS.

Bo'ness Dock.

Length of Dock	830 feet
Width of Dock	350 ,,
Length of Quayage	2,400 ,,
Width of entrance	48 ,,
Depth of water over sill at ordinary spring tides	22 ,,
Depth of water over sill at ordinary neap tides	18 ,,

6 hydraulic cranes capable of lifting 2 tons each.
8 coal shipping hoists, 100 tons per hour each.

BO'NESS—*continued.*

Tidal Harbour.

Length of Quayage	1,900 feet
Depth at high water	12 ,,
,, low water	nil

* There is a timber pond of about 5 acres connected with Bo'ness Docks.

BOSTON.

Boston Dock.

Length of Dock	825 feet
Width of Dock	450 ,,
Length of Quayage	2,395 ,,
Length of Lock	300 ,,
Width at entrance (lock)	50 ,,
Depth of water over sill at ordinary spring tides	25 ,,
Depth of water over sill at ordinary neap tides	18 ,,
Two Quays (each)	200 ,,
Depth of water at ordinary spring tides	17 ,,
Depth of water at ordinary neap tides	12 ,,

Cranes to lift up to 15 tons.
A coal hoist capable of tipping 1,000 tons per day.

BOWLING.

Bowling Harbour—Western portion.

Length of berthage, outside of harbour entrance	399 feet
Length of berthage, inside of harbour entrance	900 ,,
Area of water space	9¼ acres
Depth of water at high-water springs	17 to 20 ft.
Rise of ordinary spring tides about	9½ feet
,, neap ,,	8¼ ,,

Bowling Harbour—Eastern portion.

Length of Quayage	750 feet
Length of Timber Wharf between River Clyde and Harbour	460 ,,

BRIDGWATER.

Bridgwater Dock.

Length of Dock	700 feet
Width of Dock	200 ,,
Water area of Dock	16½ acres
Length of Quayage of Dock	600 feet
Width of entrance	40 ,,
Length of Basin	150 ,,
Width of Basin	100 ,,
Length of Quayage in River	1,100 ,,
Depth of water on sill at spring tides	15 ,,
,, neap ,,	2 ,,

BRISTOL.

Avonmouth Dock.

Length of Dock	1,400 feet
Width of Dock	500 ,,
Length of Quayage	3,600 ,,
Length of Lock	454 ,,

BRISTOL—*continued*

Avonmouth Dock—*continued.*

Width of Lock	70 feet
Depth of water over sill at spring tides	38 ,,
Depth of water over sill at neap tides	28 ,,

Cranes to lift up to 15 tons.

Bathurst Basin.

(Triangular Shape.)

Length of Quayage	1,083 feet
Length of Lock (from river)	62 ,,
Width of Lock	30 ,,
Depth of water over sill at spring tides	20 ,,
Depth of water over sill at neap tides	10 ,,

This Basin is entered both from the river and also from the Floating Harbour.

Bristol City Docks.

Length of Floating harbour	about 3 miles
Length of Quayage	22,500 feet
Length of Lock	350 ,,
Width of entrance	62 ,,
Depth of water over sill at spring tides	33 ,,
Depth of water over sill at neap tides	23 ,,

Cumberland Basin.

(Irregular Shape.)

Water area	about 4½ acres
Length of Quayage of Basin	1,600 feet
Width of entrance	62 ,,
Depth of water over sill at spring tides	33 ,,
Depth of water over sill at neap tides	23 ,,

Cranes to lift up to 35 tons.

BRITON FERRY AND NEATH.

Briton Ferry Dock.

Length of Dock	about 1,700 feet
Width of Dock	,, 400 ,,
Length of Quayage	300 ,,
Width of entrance	55 ,,
Depth of water over sill at ordinary spring tides	25 ,,
Depth of water over sill at ordinary neap tides	18 ,,

Ballast cranes capable of discharging 20 to 30 tons per hour.
Other cranes to lift from 1 to 2 tons.

BUCKIE.

Cluny Tidal Harbour.

Length of Basin	500 feet
Width of Basin	250 ,,
Length of Quayage	900 ,,
Number of Jetties	2
Width of entrance (inner)	40 ,,
,, ,, (outer)	80 ,,
Depth of water at ordinary spring tides	19 ,,
Depth of water at ordinary neap tides	16 ,,

1 crane to discharge 10 tons per hour.

BUDE.

Length of Quayage in Canal	500 feet
Depth of water at high water	15 ,,
,, ,, low water	nil

Cranes to lift 5 tons, and facilities for heaving down vessels up to 200 tons.

BURNTISLAND.

Burntisland Dock.

Length of Dock	600 feet
Width of Dock	455 ,,
Length of Quayage	2,050 ,,
Width of entrance	50 ,,
Depth of water over sill at ordinary spring tides	22 ,,
Depth of water over sill at ordinary neap tides	17 ft. 6 in.

2 ballast cranes capable of discharging 20 tons per hour.
4 staithes for shipment of coal—100 tons per hour.

Tidal Harbour.

Length of Quayage	600 feet
Depth at high water (springs)	22 ,,
,, low water (springs)	6 ,,

3 ballast jetties in Tidal Harbour.

BURRY PORT.

Burry Port Dock.

Length of Dock	400 feet
Width of Dock	160 ,,
Length of Quayage	250 ,,
Number of Jetties	3 ,,
Width of entrance	45 ,,
Depth of water over sill at ordinary spring tides	22 ,,
Depth of water over sill at ordinary neap tides	15 ,,

Tidal Harbour.

Water area	15 acres
Width at entrance	221 feet
Depth of water over sill at ordinary spring tides	25 ,,
Depth of water over sill at ordinary neap tides	18 ,,

Good layerage.
Ballast cranes capable of discharging 30 tons per hour.
Other cranes to lift from 2 to 5 tons.
Staithes for shipment of coal to 400 tons per hour.

CAMPBELTOWN.

Length of Harbour	600 feet
Width of Harbour	450 ,,
Length of Quayage	2,040 ,,
Width of entrance	180 ,,
Depth at high water	22 ,,
,, low water	13 ,,

1 crane to lift 5 tons.

CARDIFF.

East Bute Dock.

Length of Dock	4,300 feet
Width of Dock	300&500 ,,
Length of Quayage	9,360 ,,
Length of Lock	200 ,,
Width of entrance	49 ,,
Depth of water over sill at ordinary spring tides	26 ,,
Depth of water over sill at ordinary neap tides	26 ,,
Length of Basin	380 ,,
Width of Basin	250 ,,
Quayage	1,040 ,,
Depth of water over sill at ordinary spring tides	31·9 ,,
Depth of water over sill at ordinary neap tides	21·9 ,,

3 ballast cranes, capable of discharging 100 tons per hour each.
20 staithes for shipment of coal—100 tons per hour.
Sheer legs to lift 60 tons.
Hydraulic and other cranes to lift from 2 to 20 tons.

West Bute Dock.

Length of Dock	4,000 feet
Width of Dock	200 ,,
Length of Quayage	8,800 ,,
Number of Jetties	nil
Length of Lock	152 ,,
Width of entrance	36 ,,
Depth of water over sill at ordinary spring tides	19 ,,
Depth of water over sill at ordinary neap tides	19 ,,
Length of Basin	300 ,,
Width of Basin	200 ,,
Quayage	640 ,,
Width of entrance	45 ,,
Depth of water over sill at ordinary spring tides	28 ft. 9 in.
Depth of water over sill at ordinary neap tides	18 ft. 9 in.

4 ballast cranes capable of discharging up to 100 tons per hour.
13 staithes for shipment of coal—80 tons per hour each.
4 cranes to lift 10 tons.

New Roath Dock.

(In course of construction.)

Length of Dock	2,400 feet
Width of Dock	600 ,,
Length of Quayage	5,920 ,,
Width of entrance of Lock	80 ,,
Length of Lock	600 ,,
Depth of water over sill at ordinary spring tides	35 ft. 9 in.
Depth of water over sill at ordinary neap tides	30 feet

Roath Basin.

Length of Basin	1,000 feet
Width of Basin	550 ,,
Length of Quayage	2,700 ,,
Width of entrance	80 ,,
Depth of water over sill at ordinary spring tides	35 ft. 9 in.
Depth of water over sill at ordinary neap tides	25 ft. 9 in.

2 ballast cranes capable of discharging 100 tons per hour.
9 staithes for shipment of coal—100 tons per hour each.
2 hydraulic cranes to lift 2 tons.

CARNARVON.

Tidal Basin.

Length of Tidal Basin	650 feet
Width of Tidal Basin	300 ,,
Length of Quayage	1,700 ,,
Width of entrance	65 ,,
Depth of water at ordinary spring tides	18 ,,
Depth of water at ordinary neap tides	9 ,,

Inner Harbour.

Length of Quayage	2,600 feet
Depth of water at ordinary spring tides	12 ,,
Depth of water at ordinary neap tides	8 ,,

CARRICKFERGUS.

Tidal Harbour.

Length of Harbour (greatest)	about 1,200 feet
Width of Harbour	500 ,,
Length of Quayage	about 2,320 ,,
Width of entrance	80 ,,
Depth of water at ordinary high water	16 ,,
,, ,, ,, low water	6 ,,

Old Harbour.

Length of Quayage	about 750 feet
Depth of water at high water	9 ,,
,, ,, low water	nil

CHARLESTOWN.

Tidal Harbour.

Can accommodate 30 small vessels.

5 staithes for shipment of coals—1,000 tons per day.
1 crane to lift 3 tons.

CORK.

Length of Quay	1,350 feet
Depth of water at high tide	32 ,,
,, ,, low tide	20 ,,
Length of Quay	250 ,,
Depth of water at high tide	32 ,,
,, ,, low tide	20 ,,
Length of Quay	600 ,,
Depth of water at high tide	35 ,,
,, ,, low tide	23 ,,
Length of Quay	1,000 ,,
Depth of water at high tide	32 ,,
,, ,, low tide	20 ,,

Cranes to lift from 5 to 12 tons.
Several quays for colliers, with a depth of from 12 to 15 feet at high tide, and 3 to 4 feet at low tide.

DARTMOUTH.

Kingswear Tidal Wharf.

Length of Quayage	500 feet
Depth of water at ordinary spring tides	20 to 28 ft.
Depth of water at ordinary low tides	6 to 14 ft.
Length of Jetty	120 feet
Depth of water at high tide	28 ,,
,, ,, low tide	14 ,,

2 steam cranes to lift 3 tons each.

DOVER.

Granville Dock.

Width of entrance ..... about	69 feet
Area of water ..... about	5 acres

Wellington Dock.

Width of entrance ..... about	50 feet
Water area ..... about	11½ acres

Harbour.

Width of entrance ..... about	145 feet
Water area about ..... about	14 acres
Depth of water at ordinary spring tides	21 feet
Depth of water at ordinary neap tides	16 ,,

1 large crane for lifting boilers, 1 for masting vessels, and several to lift up to 4 tons.

DUBLIN.

Alexandra Basin.

Length of Quayage	2,355 feet
Area of water	40 acres
Depth of water at low water	24 to 26 ft.

George's Dock.

Water area	1¾ acres
Length of Quayage	1,060 feet
Depth on sill at high water	17 ,,

Inner Dock.

Water area	4½ acres
Length of Quayage	1,860 feet

Old Dock.

Water area	2 acres
Length of Quayage	1,210 feet
Depth on sill at high water	15 ,,

Spencer Docks.

Inner New Dock.

Length of Dock	1,710 feet
Width of Dock	100 ,,
Depth of water	15 ,,

DUBLIN—*continued.*

Spencer Docks—*continued.*

Outer Old Dock.

Length of Quayage	830 feet
Width of Quayage	98 ,,
Depth of water	15 ,,
Total Quayage of both Docks	6,772 ,,
Length of Lock (from the Liffey)	174 ,,
Width of Lock	24½ ,,
Depth on sill at ordinary high water	13½ to 16½ ft.

Ringsend Basins.

Inner Basin.

Length of Quayage	1,500 feet
Average depth of water	11 ,,

Outer Basin.

Length of Quayage	4,500 feet
Average depth of water	15 ,,

Entrance Locks.

Length of large Lock	150 ,,
Width of entrance	35 ,,
Length of second Lock	120 ,,
Width of entrance	35 ,,

The third lock is for canal boats.
The depth of water on the sill of the largest lock at high water is 15½ to 20 feet.

DUMFRIES.

Length of Quayage at Glencaple	180 feet
Length of Quayage at Kingholm and Laghall	350 ,,
Length of Quayage at Dockfoot	150 ,,
Depth of water (springs) at Glencaple	15 ,,
Depth of water (springs) at Kingholm and Laghall	10 ,,
Depth of water (springs) at Dockfoot	8½ ,,
Low water (at all the quays)	nil

DUNDEE.

Earl Grey Dock.

Length of Dock	700 feet
Width of Dock	450 ,,
Length of Quayage	2,600 ,,
Length of Lock	210 ,,
Width of Lock	55 ,,
Depth of water over sill at ordinary spring tides	18 ,,
Depth of water over sill at ordinary neap tides	13½ ,,

Cranes to lift up to 30 tons.

King William IV. Dock.

Length of Dock	725 feet
Width of Dock	440 ,,
Length of Quayage	2,500 ,,
Length of Lock	170 ,,
Width of Lock	40 ,,
Depth of water over sill at ordinary spring tides	15½ ,,
Depth of water over sill at ordinary neap tides	11 ,,

Cranes to lift up to 10 tons.

DUNDEE—*continued.*

Camperdown Dock.

Length of Dock	680 feet
Width of Dock	680 ,,
Length of Quayage	2,350 ,,
Width of entrance	60 ,,
Depth of water over sill at ordinary spring tides	22½ ,,
Depth of water over sill at ordinary neap tides	18 ,,

Cranes to lift up to 20 tons.

Victoria Dock.

(Entrance from Camperdown Dock.)

Length of Dock	1,300 feet
Width of Dock	390 ,,
Length of Quayage	3,300 ,,
No. of Jetties, 2 of 60ft. and 265ft. respectively.	
Width of entrance	60 feet
Depth of water over sill at ordinary spring tides	22½ ,,
Depth of water over sill at ordinary neap tides	18 ,,

Cranes to lift up to 70 tons.

Tidal Basin.

Length of Basin	300 feet
Width of Basin	730 ,,
Area of water	4¾ acres
Length of Quayage	1,300 feet
Width of entrance	220 ,,

Deep-Water Jetties.

(Outside entrance to Camperdown Dock.)

Length of Quayage	830 feet
Depth of water at high water	31½ ,,
,, ,, low water	16 ,,

DYSART.

Dysart Dock.

Length	200 feet
Width	80 ,,
Length of Quayage	600 ,,
Width of entrance	36 ,,
Depth of water over sill at ordinary spring tides	14 ,,
Depth of water over sill at ordinary neap tides	10 ,,

Iron shoots for shipment of coal—about 300 tons per day.

Tidal Harbour.

Length of Quayage	800 feet
Depth at high water	14 ,,
Depth at low water	nil

FALMOUTH.

Tidal Harbour.

Water area	42 acres
Length of Quayage	2,000 feet
Depth of water at Quay at ordinary spring tides	23 ,,
Depth in Tidal Harbour at Buoys	18 to 23 ft.

Continued

FALMOUTH—*continued.*

Dock.

(Can be used as Floating or Dry Dock.)

Length of Dock	510 feet
Width of Dock	71 ,,
Depth of water over sill at ordinary spring tides	22 ,,

Cranes lifting from 1 to 5 tons.
Crane in process of erection to lift 45 tons.
Vessels of any draught of water can enter at all states of tide and find safe anchorage.

FLEETWOOD.

Wyre Dock.

Length of Dock	1,000 feet
Width of Dock	400 ,,
Length of Quayage	2,700 ,,
Length of Lock	250 ,,
Width of entrance	50 ,,
Depth of water over sill at ordinary spring tides	25 ,,
Depth of water over sill at ordinary neap tides	18 ,,

8 cranes on dock to lift 3 tons each.

Timber pond in connection with Wyre Dock—area	15 acres

2 cranes to lift 8 tons.

FOWEY.

Tidal Harbour.

Width of entrance—about	1,300 feet
Quays	3
Jetties	4
Depth of water at low water spring tides	18 feet

Hydraulic tips and cranes.

FRASERBURGH.

Balaclava Harbour—Tidal.

Length of Quayage	3,930 feet
Number of Jetties	2
Width at entrance	85 ,,
Depth of water at entrance, ordinary spring tides	12 ,,
Depth of water at entrance, ordinary neap tides	9 ,,

1 crane to lift 1½ tons.
The Balaclava Breakwater is available as Quayage in calm weather for a length of 700 feet. Depth at shore end 12 feet, sea end 25 feet, ordinary spring tides.

North Harbour—Tidal.

Length of Quayage	1,180 feet
Width of entrance	65 ,,
Depth of water at entrance same as South Harbour.	

South Harbour—Tidal.

Length of Quayage	1,925 feet
Number of Jetties	1
Width of entrance	40 ,,
Depth of water, ordinary spring tides	18 ,,
Depth of water, ordinary neap tides	15 ,,

1 steam crane to lift 3 tons.
1 hand crane to lift 1½ tons.

FREMINGTON.

Tidal Harbour.

Length of Quayage	900 feet
Depth of water at high water	18 ,,
,, ,, low water	nil

Cranes to lift from 2 to 10 tons.

GIRVAN.

Girvan Harbour.

Length of Quayage	550 feet
Depth of water at spring tides	11 ,,

There is a loading hurry for coals.

GLASGOW.

Length of Upper Harbour	1,516 feet
Area of water space	14 acres
Depth of water at ordinary spring tides	15 to 17 ft.
Length of Lower Harbour	17,769 feet
,, ,, under repair or reconstruction	654 ,,
Area of water space	100¾ acres
Depth of water at ordinary spring tides	24 to 28 ft.

Kingston Tidal Dock.

Length of Dock	2,490 feet
Area of water space	5¼ acres
Depth of water at ordinary spring tides	23 to 24 ft.
Rise of ordinary spring tides at Glasgow	11 ft. 2 in.
Rise of ordinary neap tides at Glasgow	9 ft. 2 in.

Numerous cranes to lift up to 75 tons.

GLOUCESTER.

Commodious Docks with upwards of two miles of Quayage, available for vessels drawing from 14 feet to 17 feet.

The Ship Canal (without locks) between Gloucester and Sharpness, a distance of 16 miles, has a constant depth of water of 18 feet in the centre, and is available for the navigation of vessels up to 230 feet long, 33 feet beam, and drawing from 13 feet to 16 feet according to length and beam.

GOOLE.

Aldam Dock.

Length of Dock	466 feet
Width of Dock	378 ,,
Length of Quayage	1,548 ,,
Depth of water over sill at ordinary spring tides	22 ,,
Depth of water over sill at ordinary neap tides	18 ,,

GOOLE—*continued.*

Barge Dock.

Length of Dock	870 feet
Width of Dock	150 ,,
Length of Quayage	1,899 ,,
Length of Lock	72 ,,
Width of entrance	21¾ ,,
Depth of water over sill at ordinary spring tides	21 ,,

Hoists for lifting vessels carrying 40 tons of coals.

Harbour Dock.

Length of Dock	260 feet
Width of Dock	210 ,,
Length of Quayage	780 ,,
Timber Ponds—Length	614 ,,
,, Width	322 ,,
Sugar House Wharf Quayage	600 ,,

No. 1 Branch Dock.

Length of Dock	280 feet
Width of Dock	77 ,,
Length of Quayage	627 ,,
Depth of water over sill at ordinary spring tides	22 ,,
Depth of water over sill at ordinary neap tides	18 ,,

Railway Dock.

Length of Dock	620 feet
Width of Dock	200 ,,
Length of Quayage	2,100 ,,
Depth of water over sill at ordinary spring tides	22 ,,
Depth of water over sill at ordinary neap tides	18 ,,

Ship Dock.

Length of Dock	700 feet
Width of Dock	206 ,,
Length of Quayage	1,758 ,,
Length of Lock	119 ,,
Width of entrance	33¼ ,,
Depth of water over sill at ordinary spring tides	18¾ ,,

Steam-Ship Dock.

Length of Dock	490 feet
Width of Dock	360 ,,
Length of Quayage	1,560 ,,
Length of Lock	264 ,,
Width of entrance	58 ,,
Depth of water over sill at ordinary spring tides	22 ,,
Depth of water over sill at ordinary neap tides	18 ,,

The Goole Docks are entered through each other from the Ouse.

GRANGEMOUTH.

New Dock.

Water area of New Dock	21 acres
Length of Dock	2,500 feet
Width of Dock	400 ,,
Length of Quayage	2,800 ,,
Number of Jetties	4
Length of Lock	350 ,,
Width of Lock	54 ,,
Depth of water over sill at ordinary spring tides	24 ,,

10 ballast cranes each capable of discharging 50 tons per hour.
2 coal hoists, each capable of shipping 200 tons per hour.

Old Dock.

Water area of Old Dock	7¼ acres
Length of Quayage	3,550 feet

2 steam cranes capable of lifting 20 tons each.
2 hydraulic cranes capable of lifting 30 cwt. each.

GRANTON.

Two Tidal Harbours.

Water area West Harbour (at H. W.)	77 acres
Water area East Harbour ,,	52 ,,
Length of Quayage	5,720 feet
Depth at high and low water	4 to 15 feet
Depth at ordinary spring tides	11 to 28 ft.

2 large steam cranes, each capable of shipping 60 to 70 tons of coal per hour.
Other cranes to lift up to 12 tons.
6 coal-tipping shoots, each capable of shipping 110 tons per hour when the tide is suitable.

GREENOCK.

James Watt Wet Dock.

Length of Dock	2,000 feet
Width of Dock	300 to 350 ,,
Width of entrance	75 ,,
Length of Jetty	800 ,,
,, of Quayage	6,400 ,,
Depth of water on sill at ordinary high water	32 ,,

Cranes to lift up to 20 tons.

Garvel Basin—Tidal.

Width of entrance	150 feet
Length of Quayage	2,480 ,,
Depth of water at high water	35 ,,

Great Harbour—Tidal.

Length of Harbour	3,230 feet
With of Harbour	600 ,,
Water area	45 acres

When completed the depth of water in this harbour will be 38 feet.

Albert Harbour.

Water area	10¾ acres
Length of Quayage	2,750 feet
Depth of water at high water	23 ,,
,, ,, low water	13 ,,

GREENOCK—*continued.*

East India Harbour.

Water area	6¾ acres
Length of Quayage	2,660 feet
Depth of water at high water	20 ,,
,, ,, low water	10 ,,

Victoria Harbour.

Water area	5½ acres
Length of Quayage	1,870 feet
Depth of water at high water	23 ,,
,, ,, low water	13 ,,

West Harbour.

Water area	7½ acres
Length of Quayage	3,410 feet
Depth of water at high water	20 ,,
,, ,, low water	10 ,,

Various cranes at the above harbours to lift up to 70 tons.

Prince's Pier.

Length of Quayage	1382 feet
Depth of water at high water	23 ,,
,, ,, low water	13 ,,

GRIMSBY, GREAT.

Alexandra Dock.

Length of Dock	6,300 feet
Width of Dock	450 ,,
Length of Quayage	6,000 ,,
Length of Lock	150 ,,
Width of entrance	37 ,,
Depth of water over sill at ordinary spring tides	18 ,,
Depth of water over sill at ordinary neap tides	13½ ,,

2 cranes, 3 to 5 tons.
2 coal staithes to ship 200 tons per hour.

Royal Dock.

Length of Dock	2,328 feet
Width of Dock	500 ,,
Length of Quayage	4,350 ,,
Water area	25 acres
Length of Lock	300 feet
Width of entrance	70 ,,
Depth of water over sill at ordinary spring tides	26 ,,
Depth of water over sill at ordinary neap tides	22 ,,
Length of Basin	930 ,,
Width of Basin	890 ,,
Length of Quayage	2,400 ,,
Width of entrance	250 ,,
Depth of water over sill at ordinary spring tides	26 ,,
Depth of water over sill at ordinary neap tides	22 ,,

Cranes to lift up to 20 tons.
Hydraulic sheers to lift 70 tons.
2 coal staithes, each capable of shipping 200 tons per hour.

Length of Quayage	2,680 ,,
Width of entrance	60 ,,
Depth of water over sill at ordinary spring tides	21½ to 26 ft.
Depth of water over sill at ordinary neap tides	17½ to 22 ft.

Cranes to lift from 1½ to 15 tons.
4 staithes for shipment of coal—100 to 200 tons per hour each.
Sheer legs to lift 40 tons.

Swainson Dock.

Length of Dock	786 feet
Width of Dock	462 ,,
Length of Quayage	1,850 ,,
Width of entrance	50 ,,
Depth of water over sill at ordinary spring tides	21½ ,,
Depth of water over sill at ordinary neap tides	17½ ,,

Cranes to lift from 1 to 3 tons.

Coal Dock.

Length of Dock	805 feet
Width of Dock	383 ,,
Length of Quayage	2,270 ,,
Number of Jetties	1
Width of entrances	42 & 50 ft.

HARTLEPOOL—*continued.*

Coal Dock—*continued.*

Depth of water over sill at ordinary spring tides	21½ feet
Depth of water over sill at ordinary neap tides	17½ ,,

4 ballast cranes, each capable of discharging 50 tons per hour
11 staithes for shipment of coal—100 to 200 tons per hour each.

Victoria Dock.

Length of Dock	2,050 feet
Width of Dock (average)	420 ,,
Length of Quayage	4,680 ,,
Number of Jetties	1
Length of Lock	140 ,,
Width of entrance	42 ,,
Depth of water over sill at ordinary spring tides	21½ ,,
Depth of water over sill at ordinary neap tides	17½ ,,

Cranes to lift from 2 to 10 tons.
17 staithes for shipment of coal—100 to 200 tons per hour each.

HARRINGTON.

Tidal Harbour.

Length of Quayage	1,000 feet
Depth of water at high water at ordinary spring tides	13 ,,
Depth of water at high water at ordinary neap tides	7 ,,
Depth of water at low water at ordinary neap tides	nil

1 steam crane (moveable) to lift 10 tons—now being constructed.
Steam cranes and small staithe for shipment of coal—30 to 60 tons per hour.

HAULBOWLINE.

Haulbowline Basin.

(In course of construction.)

Length of Basin	720 feet
Mean width of Basin	532 ,,
Length of Quayage	2,110 ,,
Width of entrance	94 ,,
Depth of water over sill at ordinary spring tides	32 ft. 8 in.
Depth of water over sill at ordinary neap tides	29 ft. 8 in.

Cranes to be erected to lift up to 40 tons, and sheers to lift 50 tons.

HAYLE.

Tidal Harbour.

Length of Quays	about 1 mile

1 crane capable of lifting 30 tons, and another more powerful being erected.

HULL.

Albert Dock.

Length of Dock	3,420 feet
Width of Dock average	300 ,,
Quayage	108 844 sq. yds.
Water area	24 acres
Length of Lock	320 feet
Width of entrance	80 ,,
Depth of water over sill at ordinary spring tides	28 ft. 5 in.
Depth of water over sill at ordinary neap tides	22 ft. 3 in.
Length of Basin	240 feet
Width of Basin	244 ,,

Numerous cranes, lifting up to 30 tons.
Coal hoists capable of shipping 150 tons per hour.

Alexandra Dock.

Length of Dock	2,300 feet
Width of Dock	1,000 ,,
Length of Quayage	10,188 ,,
Number of Jetties	4
Length of Lock	550 ,,
Width of entrance	85 ,,
Depth of water over sill at ordinary spring tides	34 ,,
Depth of water over sill at ordinary neap tides	28 ,,

Cranes to lift up to 100 tons.
2 hydraulic coal hoists, each capable of shipping 300 tons per hour.

William Wright Dock.

Length of Dock	1,385 feet
Width of Dock	220 ,,
Quayage	39,270 sq. yds.
Water area	5 acres
Length of Lock	114 feet
Width of entrance	50 ,,
Depth of water over sill at ordinary spring tides	28 ft. 5 in.
Depth of water over sill at ordinary neap tides	22 ft. 3 in.

Cranes capable of lifting 25 tons.

St. Andrew's Dock.

Length of Dock	1,890 feet
Width of Dock	250 and 210 ,,
Quayage	81,370 sq. yds.
Water area	10 acres
Length of Lock	250 feet
Width of entrance	50 ,,
Depth of water over sill at ordinary spring tides	29 ,,
Depth of water over sill at ordinary neap tides	23 ,,

Humber Dock.

Length of Dock	914 feet
Width of Dock	342 ,,
Quayage	17,639 sq. yds.
Water area	7 acres
Length of Lock	158 ft. 6 in.
Width of entrance	41 ft. 6 in.
Depth of water over sill at ordinary spring tides	26 ft. 9 in.
Depth of water over sill at ordinary neap tides	20 ft. 6 in.
Length of Basin	258 feet
Width of Basin	434 ,,
Water area	2 acres
Quayage	8,419 yards

Cranes to lift up to 20 tons.

HULL—*continued.*

Railway Dock.

Length of Dock	726 feet
Width of Dock	165 ,,
Water area about	3 acres
Quayage	10,865 sq. yds.
Length of entrance	93 feet
Width of entrance	42 ,,
Depth of water over sill at ordinary spring tides	26 ,,
Depth of water over sill at ordinary neap tides	20 ft. 6 in.

Cranes to lift up to 20 tons.

Queen's Dock.

Length of Dock	1,703 feet
Width of Dock	245 ,,
Water area about	10 acres
Quayage	18,163 sq. yds.
Length of Lock	121 feet
Width of entrance	38 ,,
Depth of water over sill at ordinary spring tides	20 ft. 6 in.
Depth of water over sill at ordinary neap tides	14 ft. 6 in.
Length of Basin	211 feet

Prince's Dock.

Length of Dock	645 feet
Width of Dock	417 ,,
Water area	6 acres
Quayage	15,643 sq. yds.
Length of Lock	120 feet
Width of entrance	35 ft. 6 in.
Depth of water over sill at ordinary spring tides	20 ft. 8 in.
Depth of water over sill at ordinary neap tides	14 ft. 6 in.

Victoria Dock.

Length of Dock	1,800 feet
Width of Dock	378 ,,
Quayage	36,706 sq. yds.
Length of Locks and entrances	187 ft., 125 ft., 127 ft., 172 ft., 110 ft.
Width of Locks and entrances	60 ft., 32 ft., 50 ft., 45 ft., 45 ft.
Depth of water over sill at ordinary spring tides	26 ft. 2 in.
Depth of water over sill at ordinary neap tides	20 feet
Length of Humber Basin	294 ,,
Width of Humber Basin	346 ,,
Quayage	4,294 sq. yds.
Width of entrance of Humber Basin	135 feet
Depth of water over sill at ordinary spring tides	27 ft. 8 in.
Depth of water over sill at ordinary neap tides	21 ft. 6 in.
Length of Drypool Lock	172 feet
Breadth of Drypool Lock	45 ,,
Length of Drypool Basin	314 ,,
Width of Drypool Basin	144 ,,
Quayage	5,358 sq. yds.
Pond space for timber	38½ acres

Cranes to lift up to 45 tons. Also coal hoist.

ILFRACOMBE.

Length of Quayage	700 feet
Depth of water at high water	22 ,,
Depth of water at low water	nil

2 cranes to lift 3 tons each.

IPSWICH.

Ipswich Dock.

Length of Dock	3,600 feet
Width of Dock mean	360 ,,
Length of Quayage	4,200 ,,
Width of entrance	50 ,,
Number of Jetties (for petroleum and general goods)	2
Depth of water over sill at ordinary spring tides	23½ ,,
Depth of water over sill at ordinary neap tides	20½ ,,
Length of Quays outside Dock	3,000 ,,

IRVINE.

Irvine Harbour.

Length of Quayage	1,746 feet
Depth of water at high water	14 to 19 ft.
Depth of water at low water	6 to 10 ft.

Cranes capable of discharging 30 tons per hour.
Hoist capable of shipping 100 tons of coal per hour.

JERSEY.

St. Helier's.

Length of Albert Pier	2,800 feet
Length of New Quay	1,000 ,,
Length of Victoria Pier	1,000 ,,
Length of Old North Pier	1,400 ,,
Length of Commercial Pier	1,200 ,,
Length of English Harbour Pier	500 ,,
Length of French Harbour Pier	800 ,,
Average depth of water at ordinary spring tides	30 ,,
Average depth of water at ordinary neap tides	18 ,,

Cranes on Albert Pier to lift up to 10 tons.
2 cranes on Victoria Pier to lift 18 cwt.

St. Aubin's Harbour.

Length of North Pier	600 feet
Length of South Pier	600 ,,
Depth of water at spring tides	17 to 18 ft.
Depth of water at low water	nil

1 crane to lift about 18 cwt.

Gorey Harbour.

Length of Pier	852 feet
Depth of water at spring tides at pier-head	29 to 30 ft.
Depth of water at neap tides at pier-head	14 ,,

1 crane to lift about 18 cwt.

KING'S LYNN.

Alexandra and Bentinck Docks.

Length of Docks	780 & 1,000 ft.
Width of Docks	360 & 400 ft.
Length of Quayage	4,800 feet
Number of Jetties	6

Continued

KING'S LYNN—*continued.*

Alexandra and Bentinck Docks—*cont.*

Length of Lock	200 ,,
Width of entrance	50 ,,
Depth of water over sill at ordinary spring tides	25 ,,
Depth of water over sill at ordinary neap tides	18 ,,

1 staithe for shipment of coals—70 tons per hour.
1 ballast crane to lift 50 tons per hour.
Other cranes to lift up to 15 tons.

Length of Boal Quay	600 ,,
Depth of water at medium tide	14 ,,
Length of South Quay	1,290 ,,
Depth of water at medium tide	11 ,,
Length of Purfleet Quay	150 ,,
Depth of water at medium tide	11 ,,

These 3 quays are continuous.
Common staithe quay—255 feet.

KINGSTOWN (IRELAND).

Kingstown Harbour.

Length of East Pier	3,500 feet
Length of West Pier	4,950 ,,
Width of entrance	760 ,,
Water area	250 acres
Length of Wharf	500 feet

Vessels drawing 24 feet of water can discharge at the wharf at any state of the tide.

KINSALE.

Tidal Harbour.

Length or Quay (in course of construction)	1,400 feet
Depth of water at spring tides	12 to 15 ft.

KIRKCALDY.

Kirkcaldy Dock.

Length of Dock	250 feet
Width of Dock	156 ,,
Length of Quayage	530 ,,
Width of entrance	31 ,,
Depth of water over sill at ordinary spring tides	14½ ,,
Depth of water over sill at ordinary neap tides	10½ ,,

Sheer legs to lift up to 39 tons.

Length of Quayage of Tidal Harbour	1,270 ,,
Depth at spring tides high water	17 ,,
Depth at neap tides high water	12 ,,
Depth at low water	nil

KIRKWALL, PORT OF.

Length of Basin	390 feet
Width of Basin	220 ,,
Width of entrance	80 ,,
Depth of water at spring tides	14 ,,
,, ,, neap tides	10 ,,

Continued

KIRKWALL, PORT OF—*continued.*

New Pier outside Basin.

Length of Quayage both sides	1,120	feet
Depth of water at pier end, springs	21	,,
Depth of water at low water, springs	12	,,

LANCASTER.

Glasson Dock.

Length of Dock	495	feet
Width of Dock	179 to 240	,,
Length of Quayage	1,345	,,
Width of entrance	35	,,
Depth of water over sill at ordinary spring tides	21	,,
Depth of water over sill at ordinary neap tides	13 ft. 9 in.	

Canal Company.

Length of Basin inshore of Dock	666	feet
Width of Basin	1,000	,,
Length of Quayage	872	,,
Width of entrance	26	,,
Depth of water over sill at ordinary spring tides	14	,,
Depth of water over sill at ordinary neap tides	nil	

2 ballast cranes capable of discharging 100 tons per hour.
Other cranes to lift from 1½ to 3 tons.
1 staithe for shipment of coal.

Lancaster Harbour.

Length of new Quay	220	feet
Length of Jetty	360	,,
Length of Quayage	500	,,
Depth of water at ordinary spring tides	12	,,
Depth of water at ordinary neap tides	6	,,

LARNE.

Larne Harbour.

Length of Quayage	1,500	feet
Depth at ordinary high water	26	,,
,, ,, low water	18	,,

Cranes lifting from 1 to 10 tons.

LEITH.

Edinburgh Dock.

(Communicating with Albert Dock.)

Length of Dock	1,500	feet
Width of Dock	650	,,
Water area	16⅜	acres
Length of Quayage	6,000	feet
Jetties (one), length	1,000	,,
Width of Lock	60	,,
Depth of water over sill at ordinary spring tides	25½	,,
Depth of water over sill at ordinary neap tides	21	,,

Cranes to lift up to 19 tons.

LEITH—*continued*

Albert Dock.

(Communicating with Edinburgh Dock.)

Length of Dock	1,100	feet
Width of Dock	450	,,
Water area	11	acres
Length of Quayage	3,000	feet
Length of Lock	350	,,
Width of Lock	60	,,
Depth of water over sill at ordinary spring tides	25½	,,
Depth of water over sill at ordinary neap tides	21	,,

Cranes to lift up to 50 tons.

Victoria Dock.

Length of Dock	750	feet
Width of Dock	300	,,
Water area	5	acres
Length of Quayage	2,000	feet
Width of Lock	60	,,
Depth of water over sill at ordinary spring tides	23½	,,
Depth of water over sill at ordinary neap tides	19	,,

Cranes to lift up to 30 tons.

Old Dock.

(Communicating with Queen's Dock.)

Length of Dock	750	feet
Width of Dock	300	,,
Water area	5	acres
Length of Quayage	1,800	feet
Length of Lock	160	,,
Width of Lock	36	,,
Depth of water over sill at ordinary spring tides	17½	,,
Depth of water over sill at ordinary neap tides	13	,,

Queen's Dock.

(Communicating with Old Dock.)

Length of Dock	750	feet
Width of Dock	300	,,
Water area	5½	acres
Length of Quayage	1,800	feet
Width of Lock	36	,,
Depth of water over sill at ordinary spring tides	17½	,,
Depth of water over sill at ordinary neap tides	13	,,

Albert Basin.

Length of Basin	450	feet
Width of Basin	200	,,
Water area	2¼	acres
Length of Quayage	1,000	feet
Depth of water over sill at ordinary spring tides	27	,,
Depth of water over sill at ordinary neap tides	22½	,,

Inner Harbour.

Length of Harbour	1,800	feet
Width of Harbour	120 to 370	,,
Water area	8	acres
Length of Quayage	3,000	feet
Depth of water over sill at ordinary spring tides	12½ to 18½	,,
Depth of water over sill at ordinary neap tides	8 to 14	,,

LEITH—*continued.*

Outer Harbour.

Length of Harbour	3,900	feet
Width of Harbour	230 to 500	,,
Water area	24	acres
Length of Quayage	1,000	feet
Length of Jetty	300	,,
Depth of water over sill at ordinary spring tides	27½	,,
Depth of water over sill at ordinary neap tides	23	,,

1 crane to lift 15 tons.
Entrance channel to the docks.

LERWICK.

Public Pier

In course of construction.

LIMERICK.

Limerick Dock.

Length of Dock	800	feet
Width of Dock	400	,,
Length of Quayage	2,330	,,
Width of entrance	70	,,
Depth of water over sill at ordinary spring tides	20 to 22 ft.	
Depth of water over sill at ordinary neap tides	15 to 16 ft.	

2 cranes to lift 7 and 4 tons.

LITTLEHAMPTON.

London, Brighton, and South Coast Railway Wharf.

Length of Quayage	1,200	feet
Depth of water over sill at ordinary spring tides	19	,,
Depth of water over sill at ordinary neap tides	15	,,

Cranes to lift 5 tons.
There are also several wharves belonging to private firms at Littlehampton.
The average rise and fall of tides is 14 feet.

LIVERPOOL.

Garston New Dock.

Length of Dock	1,000	feet
Width of Dock	400	,,
Width of entrance	55	,,
Depth of water over sill at ordinary spring tides	21 ft. 6 in.	
Depth of water over sill at ordinary neap tides	17 ft. 6 in.	

13 cranes, capable of discharging 200 tons per day.
Other cranes to lift from 2 to 40 tons.
4 staithes for shipment of coal—100 tons per hour.

Garston Old Dock.

Length of Dock	1,100	feet
Width of Dock	250	,,
Width of entrance	50	,,
Depth of water over sill at ordinary spring tides	20	,,
Depth of water over sill at ordinary neap tides	16	,,

10 cranes, capable of discharging 200 tons per day.
Other cranes to lift from 2 to 10 tons.
4 staithes for shipment of coal—100 tons per hour.

The following are the levels of High Water of certain tides above the datum level referred to in the above Table :—

	Ft.	In.
Average High Water mark of Equinoctial Spring Tides	21	1
Average High Water of Spring Tides, including Equinoctial Tides	19	0½
Average High Water mark of ordinary Spring Tides, excluding the Equinoctial Tides	18	10
Average High Water Mark of ordinary Neap Tides	11	7

To arrive at the depth of water over sill of any Dock upon any of these tides, add the depth of sill below the datum to the figures representing the levels of the tide required.

Numerous cranes at the above docks to lift up to 100 tons. A floating crane capable of dealing with loads of from 30 to 100 tons, and special appliances for the shipment of coal.

LLANELLY.

New Dock.

Length of Dock	600 feet
Width of Dock	240 ,,
Number of Jetties	8
Width of entrance	31 ft. 6 in.
Depth of water over sill at ordinary spring tides	23 feet
Depth of water over sill at ordinary neap tides	16 ,,

2 ballast cranes capable of discharging 30 tons per hour.
Other cranes to lift from 3 to 5 tons.
2 staithes for shipment of coal—to ship 100 tons per hour.

Copper Works Docks.

Length of Dock	680 feet
Width of Dock	110 ,,
Width of entrance	31 ,,
Depth of water over sill at ordinary spring tides	20 ,,
Depth of water over sill at ordinary neap tides	12 ,,

1 ballast crane outside dock capable of lifting 1½ tons.
2 cranes capable of shipping 40 tons of coal per hour.
Other cranes lifting from 1 to 10 tons.

Carmarthenshire Dock—Tidal.

Length of Quayage	900 feet
Depth of water at spring tides	18 to 20 ,,
Depth of water at neap tides	10 to 12 ,,

1 coal tip.

LONDON (East and West India Docks).

East India Import Dock.

Length of Dock	1,410 feet
Width of Dock	560 ,,
Depth of Dock	24 ft. 10 in.
Water area	18 acres
Length of Quayage	3,800 feet
Number of Jetties	8
Length of entrance Lock	209 feet
Width of entrance Lock	47 ft. 9 in.
Depth of entrance Lock	24 ft. 10 in.

East India Export Dock.

Length of Dock	760 feet
Width of Dock	463 feet
Depth of Dock	24 ft. 10 in.
Water area	8 acres.
Length of Quayage	2,400 feet
Number of Jetties	2
Width at entrance	50 feet

Depth of water over sill, spring tides, Wapping entrance	24 ft. 6 in.
Depth of water over sill, neap tides, Shadwell entrance	25 ft. 10 in.
Depth of water over sill, neap tides, Wapping entrance	20 ft. 9 in.

241 cranes.

Midland Railway Company's Dock.

Length of Dock	about 750 feet
Width of Dock	,, 325 ,,

Millwall Dock.

Length of Dock	4,300 feet
Width of Dock	350 ,,
Length of Quayage	8,800 ,,
Number of Dolphins inside Dock	6
Length of Lock	450 ,,
Width of entrance	80 ,,
Depth of water over sill at Trinity high water	28 ,,
Depth of water over sill at ordinary neap tides	25½ ,,

Sheer legs equal to 80 tons.
60 hydraulic cranes from 15 tons to 30 cwt.
Cranes to lift from 2 to 20 tons.
Inside the Wet Dock is a Dry Dock.

LONDON—*continued.*

North London Railway Company's Dock, Poplar, E.

Entrance from Blackwall Basin, West India Docks.

For vessels with cargoes in bulk for railway transit only.

Length of Dock	1,290 feet
Width of Dock	310 ,,
Wat r area	7½ acres
Length of Quayage	3,290 feet
Width of entrance	30 ,,
Depth of water over sill at ordinary spring tides	20 ,,

Hydraulic cranes capable of discharging 90 tons of coal or ballast per hour.
Other cranes to lift from 1 to 35 tons.
Hydraulic tips for barge-loading (coal)—100 to 200 tons per hour.

Regent's Canal Dock.

Water area of Dock	10 acres
Length of Quayage	2,060 feet
Number of Jetties	8
Length of Lock	350 ,,
Width of entrance	60 ,,

20 cranes for transhipment of goods.
6 other cranes to lift from 10 cwt. to 15 tons.

Royal Albert Dock.

Length of Dock	7,800 feet
Width of Dock	490 ,,
Length of Quayage	17,250 ,,
Length of Lock, old entrance	550 ,,
,, ,, new ,,	550 ,,
Width of entrance, old ,,	80 ,,

Ship Channel, Acorn, and Lavender Ponds (Surrey Commercial Docks).

Length	1,530 feet
Width	100 ,,
Length of Quayage	1,530 ,,
Width of entrance	37½ ,,

Lavender Lock.

Length of Lock	324 feet
Width of Lock	34 ,,
Depth of water over sill at ordinary spring tides	18 ft. 6 in.
Depth of water over sill at ordinary neap tides	14 ft. 6 in.

LONDONDERRY.

Length of quays on either side of the river about a mile.

Depth of water alongside quays at ordinary high water, 24 feet.

Ditto at low water, 16 feet.

Steam crane capable of discharging about 200 tons per day. Also hand cranes.

LYDNEY.

Lower Dock.

Length of Dock	780 feet
Width of Dock	105 ,,
Length of Quayage (about)	1,600 ,,
Width of Lock	25 ,,
Depth of water on sill	14 ,,

Tidal Basin.

Length of Basin	270 feet
Width of Basin (average)	75 ,,
Width of entrance	33 ,,
Depth of water on sill at spring tides	25 ,,
Depth of water on sill at neap tides	12 ,,

Vessels too wide to pass through the Lock can be loaded at the coal tip in the Tidal Basin, but only one vessel at a time can be admitted into Tidal Basin for loading.

Canal.

Length of Canal	3,300 feet
Width of Canal	72 ,,
Depth of Canal	12 ,,

Upper Dock (Lydney Basin).

Length of Dock	908 feet
Width of Dock	88 ,,
Depth of Dock	12 ,,
Length of Quayage (about)	2,000 ,,

Cranes to lift up to 10 tons.
9 coal staithes, capable of shipping from 900 to 1,350 tons per hour.

MACDUFF.

Tidal Harbour.

Length of outer basin	430 feet
Width of outer basin	150 ,,
Length of inner Basin	700 ,,
Width of inner basin	200 ,,
Length of Quayage	1620 ,,
Width of entrance	85 ,,
Depth of water over sill at ordinary spring tides	14½ to 16 ft.
Depth of water over sill at ordinary neap tides	11 feet

Portable steam crane, capable of lifting 3 tons.
Hand crane capable of lifting 1 ton.

MARYPORT.

Senhouse Dock.

Length of Dock	850 feet
Width of Dock	300 ,,
Length of Quayage	2,200 ,,
Length of Lock	100 ,,
Width of entrance	50 ,,
Depth of water over sill at ordinary spring tides	25 ,,
Depth of water over sill at ordinary neap tides	19 ,,

4 steam cranes to lift from 3 to 5 tons.
1 hurry (drop) for shipment of coals, 100 tons per hour.

Elizabeth Dock.

Length of Dock	600 feet
Width of Dock	240 ,,
Length of Quayage	1,600 ,,
Timber Slip	1
Length of Lock	110 ,,
Width of entrance	50 ,,
Depth of water over sill at ordinary spring tides	20 ,,
Depth of water over sill at ordinary neap tides	14 ,,

6 hurries (drop) for shipment of coals, 60 tons per hour.
1 staithe for shipment of coals, 60 tons per hour.
1 steam crane to lift 3 tons.

Tidal Harbour and River Frontage.

Length of Quayage	3,800 feet
Depth of water at high water, ordinary spring tides	17 to 22 ,,
Depth of water at high water, ordinary neap tides	11 to 16 ,,
Depth of water at low water, ordinary neap tides	3 ,,

5 hurries (drop) for shipment of coals, 60 tons per hour.
3 staithes for shipment of coals, 60 tons per hour.

MIDDLESBROUGH.

Middlesbrough Dock.

Length of Dock	1,200 feet
Width of Dock	400 ,,
Length of Quayage	1,500 ,,
Number of Jetties	1
Length of Lock	200 feet
Width of entrance	58 ,,

Continued

MIDDLESBROUGH—*continued.*

Middlesbrough Dock—*continued.*

Depth of water over sill at ordinary spring tides	23½ feet
Depth of water over sill at ordinary neap tides	19 ,,

Cranes to lift up to 15 tons.
Sheer legs to lift 40 tons.
3 staithes for shipment of coals, capable of shipping 200 tons each per hour.
1 staithe for shipment of coals outside dock, capable of shipping 200 tons per hour.
1 hydraulic lift for bunker coal—200 tons per hour.
There are several wharves on the south side of the Tees belonging to private firms.

MILFORD HAVEN.

Milford Docks.

(In course of construction.)

Area of main basin	about 18 acres
Width of entrance	70 feet
Depth of water over sill at high tide	34 feet
Length of small basin	about 680 feet
Width of small basin	70 ,,
Width of entrance	34 ,,
Depth of small basin at ordinary spring tides	26 ,,
Length of Quayage	about 1,600 ,,

MILLOM (Duddon), Cumberland.

(A tidal harbour in the estuary of the River Duddon.)

Hodbarrow Mining Company's Pier.

Length of Quayage	840 feet
Depth of water at high spring tides	16 ,,
,, ,, neap ,,	8 ,,
,, ,, low water	nil

2 steam cranes to lift 3 tons.

Millom Iron Works Pier.

Length of Quayage	420 feet
Depth of water at high spring tides	14 ,,
,, ,, neap ,,	6 ,,
,, ,, low water	nil

2 steam cranes to lift 1½ and 3 tons.

MONTROSE.

Montrose Dock.

Length of Dock	420 feet
Width of Dock	380 ,,
Length of Quayage	1,350 ,,
Length of entrance	148 ,,
Width of ,,	55 ,,
Depth of water over sill at ordinary spring tides	13 ft. 9 in.
Depth of water over sill at ordinary neap tides	10 ft.

Cranes to lift 4 tons.
2,300 feet of quayage along River Southesk.
Depth of water at deep water jetty at high water 22ft. 9in.; at low water 13ft. 9in.

NEATH. *See* BRITON FERRY.

NEWCASTLE-ON-TYNE.

Northumberland Dock.

Length of Dock	3,700 feet
Width of Dock	650 ,,
Length of Quayage	450 ,,
Number of Jetties	1
Staithes for shipping coal (up to 500 tons per hour)	15
Depth of water over sill at ordinary spring tides	24 feet
Depth of water over sill at ordinary neap tides	20 ,,
Length of Lock	250 ,,
Width of entrance	70 ,,
Length of Basin	480 ,,
Width of Basin	170 ,,

3 ballast cranes fitted on s.s. Hopper Barges, each capable of discharging 35 tons per hour.
Steam and hydraulic cranes to lift from 1½ to 10 tons.
Several coal staithes in the river to ship from 100 to 700 tons per hour.

Albert Edward Dock.

Length of Dock	1,300 feet
Width of Dock	850 ,,
Length of Quayage	2,600 ,,
Depth of water over sill at ordinary spring tides	30 ,,
Depth of water over sill at ordinary neap tides	26 ,,
Length of Lock	350 ,,
Width of entrance	80 ,,
Depth of water over outer sill at ordinary spring tides	36 ,,
Depth of water over outer sill at ordinary neap tides	32 ,,
Length of Basin	500 ,,
Width of Basin	300 ,,

1 coal staithe to ship from 400 to 500 tons per hour.

Tyne Dock (North Eastern Railway Company).

Length of Dock	2,640 feet
Width of Dock	840 ,,
Length of Quayage	5,340 ,,
Number of Jetties (3 of which are used exclusively for the shipment of coal)	17
Width of entrance	80 ,,
Depth of water over sill at ordinary spring tides	24 ft. 6 in.
Depth of water over sill at ordinary neap tides	21 ft. 6 in.
Length of Lock	250 feet
Width of entrance	60 ,,
Depth of water over sill at ordinary spring tides	24 ft. 6 in.
Depth of water over sill at ordinary neap tides	21 ft. 6 in.
Length of Tidal Basin	530 feet
Width of Basin	600 ,,
Length of Quayage	380 ,,
Width of entrance	160 ,,
Depth of water at entrance at ordinary spring tides	26 ft. 6 in.
Depth of water at entrance at ordinary neap tides	23 ft. 6 in.

Cranes capable of lifting from 1½ to 10 tons.
3 staithes for shipment of coals.
Can load a vessel at the rate of 500 tons per hour.

NEWCASTLE-ON-TYNE—*continued.*

Tidal Harbour.

(Quay on River Tyne.)

Length of Quayage	1,100 feet
Depth of water at ordinary spring tides	25 ,,
Depth of water at ordinary neap tides	22 ,,

1 jetty for shipping coal to tug boats and small craft.

Quay

Along the north side of River Tyne, from Swing Bridge at Newcastle, eastward, to Ouseburn.

Length of Quayage	4,770 feet
Average depth of water (high)	25 ft. 9 in.
,, ,, (low)	10 ,, 9 ,,

Cattle Wharf at St. Lawrence.

Length	390 feet
Average depth of water (high)	35 ,,
,, ,, (low)	20 ,,

(Gateshead.)

(Quayage eastward of the Swing Bridge.)

Length	750 feet
Average depth of water (high)	33 ,,
,, ,, (low)	18 ,,

Cranes to lift up to 3 tons.
There are numerous powerful staithes in the River Tyne for the shipment of coals.

NEWPORT (MON.)

Alexandra Dock.

Length of Dock	2,500 feet
Width of Dock	500 ,,
Length of Quayage	6,000 ,,
Length of Lock	350 ,,
Width of entrance	65 ,,
Depth of water over sill at spring tides	36 ,,
Depth of water over sill at neap tides	25 ,,

17 ballast and iron ore cranes, each capable of discharging 30 tons per hour.
1 other crane to lift 10 tons.
8 staithes for shipment of coal, each 200 tons per hour.

Old Docks.

Outer Dock.

Length of Dock	785 feet
Width of Dock	230 ,,
Length of Quayage	1,600 ,,
Length of Lock	220 ,,
Width of entrance	61 ,,
Depth of water over sill at spring tides	31 to 36 ,,
Depth of water over sill at neap tides	15 to 20 ,,

1 ballast crane capable of discharging 25 tons per hour.
Other cranes to lift from 1½ to 20 tons.
1 staithe for shipment of coals—200 tons per hour.

NEWPORT—*continued.*

Inner Dock.

Length	940 feet
Width	350 ,,
Width of entrance	70 feet
Depth of water on sill	24 ,,
Length of Quayage	2,420 ,,

2 ballast cranes each capable of discharging 25 tons per hour, and 1 moveable crane.
5 staithes for shipment of coal, each 200 tons per hour.
2 anti-breakage cranes at Nos. 1 and 4 staithes.
There are several wharves at Newport owned by private firms.

NEWRY.

Canal.

Length of Quayage for vessels up to 10 feet draught	6,500 feet
Ditto up to 12 feet 6 inches draught	3,740 ,,

Old Sea Lock.

One and a half miles south of Newry. Accommodation for two vessels of 15 feet draught of water.

Sea Lock.

Three and a half miles south of Newry. Accommodation for three vessels.

Length of Sea Lock	220 feet
Width of Sea Lock	50 ,,
Depth of water on sill at ordinary spring tides	17 ft. 3 in.

NEWTON NESS (Milford Haven).

Iron Pier and Jetties.

Length of Quayage	928 feet

Cranes to lift 2 to 3 tons.
Staithes for shipment of coal.

NEYLAND (Pembrokeshire).

Floating Stage and Pontoon.

Length of Stage and Pontoon	950 feet
Width of Stage and Pontoon	70 ,,
Depth of water at ordinary high tides	36 ft. 6 in.
,, ,, ,, neap ,,	30 ft. 6 in.

PAR.

Quay.

Length of Quayage	1,800 feet
Number of Jetties	2
Width of entrance to Harbour	150 ,,
Depth of water at ordinary spring tides	13 ,,
Depth of water at ordinary neap tides	9 ,,

1 crane to lift 10 tons.

PENARTH.

Penarth Dock.

Length of Dock	2,900 feet
Width of Dock	370 ,,
Length of Quayage	3,225 ,,
Length of Lock	270 ,,
Width of entrance	60 ,,
Depth of water over sill at ordinary spring tides	35 ,,
Depth of water over sill at ordinary neap tides	25 ,,
Length of Basin	400 ,,
Width of Basin	330 ,,
Length of Quayage	660 ,,
Width of entrance	60 ,,
Depth of water over sill at ordinary spring tides	35 ,,
Depth of water over sill at ordinary neap tides	25 ,,

9 ballast cranes capable of discharging 55 tons per hour each.
16 staithes for shipment of coal—400 tons per hour.
Cranes to lift up to 10 tons.

Penarth Tidal Harbour.

Length	13,000 feet
Width	600 ,,
Length of Quayage	15,000 ,,
Depth of water at berths at ordinary spring tides	30 ,,
Depth of water at berths at ordinary neap tides	20 ,,

2 ballast cranes capable of discharging 50 tons per hour.
10 staithes for shipment of coal—150 tons per hour.

PENRYN.

Tidal Harbour.

Length of Harbour	5,280 feet
Depth of water at Quay at spring tides	12½ ,,
Depth of water at Quay at neap tides	9 ,,

There are 7 private wharfs and quays.
Cranes to lift 20 tons.

PENZANCE.

Tidal Harbour.

Water area of Harbour	22 acres
Length of Quayage	3,300 feet

Floating Dock.

Water area of Floating Dock	3½ acres
Length of Quayage	1,400 feet
Width of entrance	50 ,,
Depth of water on sill at ordinary spring tides	21 ,,
Depth of water on sill at ordinary neap tides	17 ,,

Steam and hand-cranes.

PERTH.

Perth Harbour.

Length of Friarton Harbour	507 feet
Width of ,, ,, about	100 ,,
Length of Quayage Friarton Harbour	507 ,,
,, ,, at Limeshore	718 ,,
Total Quayage	1,225 ,,
High water, Limeshore	9 ,,
,, Friarton Harbour	12½ ,,
Low water, Limeshore	2 ft. 4 in.
,, Friarton Harbour	5 feet

2 cranes to lift 3 and 5 tons.

PETERHEAD.

South Harbour (Tidal).

Length of Harbour	770 feet
Width of Harbour	350 ,,
Length of Quayage	2,578 ,,
Width of entrance	90 ,,
Number of Jetties	2
Depth of water over sill at ordinary spring tides	18 to 19 ft.
Depth of water over sill at ordinary neap tides	15 to 16 ft.

North Harbour (Outer Basin, Tidal).

Length of Harbour	500 feet
Width of Harbour	500 ,,
Length of Quayage	1,670 ,,
Width of entrance	100 ,,
Depth of water over sill at ordinary spring tides	17 to 18 ft.
Depth of water over sill at ordinary neap tides	14 to 15 ft.

North Harbour (Inner Basin, Tidal).

Length of Harbour	380 feet
Width of Harbour	500 ,,
Length of Quayage	2,235 ,,
Number of Jetties	2
Depth of water over sill at ordinary spring tides	15 ft 6 in. to 16 ft. 6 in.
Depth of water over sill at ordinary neap tides	12 ft 6 in. to 13 ft. 6 in

2 cranes, each capable of lifting 3 tons.

Port Hendry Tidal Harbour.

(In course of construction.)

Length of Quayage completed	700 feet
Depth of water at spring tides	11 to 12 ft.
Depth of water at low water	nil

PLYMOUTH.

Great Western Dock.

Length of Dock	1,200 feet
Width of Dock	500 ,,
Length of Quayage	3,000 ,,
Jetty (depth at high water, 40 feet; at low water, 24 feet)	800 ,,
Length of Lock	120 ,,
Width of entrance	80 ,,
Depth of water over sill at ordinary spring tides	22 ,,
Depth of water over sill at ordinary neap tides	18 ,,

Entered through Millbay tidal harbour from Plymouth Sound, where there is good shelter and safe anchorage at all states of the tide.

PLYMOUTH—*continued.*

Millbay Tidal Harbour.

Length of Quayage	3,380 feet
Depth of water at ordinary spring tides	14 ,,
Depth of water at ordinary neap tides	10 ,,
Depth of water at ordinary low tides	nil

Sutton Tidal Harbour.

Length of Quayage	3,500 feet
Depth of water at ordinary spring tides	18 ft. to 20 ft.
Depth of water at ordinary neap tides	14 ft. to 16 ft.

4 hand cranes to lift from 1 to 8 tons.
Entrance from Plymouth Sound.

Cattewater Tidal Harbour.

Length of Quayage	6,000 feet
Depth of water at high tide	17 ,,
Depth of water at low tide	nil

Entrance from Plymouth Sound.
Moorings for 16 vessels up to 30 feet draft of water, discharging at all states of the tide.

Turnchapel Tidal Wharf, River Plym.

Length of Quayage	350 feet
Depth of water at high tide	39 to 40 ,,
Depth of water at low tide	23 to 24 ,,

2 steam cranes capable of lifting 10 tons each.

POOLE.

Tidal Harbour.

Length of Quayage	2,000 feet
Rise and fall of tides	7 ,,

Vessels up to about 400 tons can be accommodated.
2 cranes to lift 2 and 5 tons respectively.

PORT DINORWIC.

Length of Tidal Basin	480 feet
Width of Tidal Basin	156 ,,
Length of Quayage	1,060 ,,
Depth of water, ordinary spring tides	13 ,,
Depth of water, ordinary near tides	8½ ,,
Quayage outside of Tidal Basin	960 ,,
Depth of water, ordinary spring tides	14 ,,
Depth of water, ordinary neap tides	9 ,,

PORT GLASGOW.

Harbours and Wharves.

Length of East Wharf (facing the river)	500 feet
Depth at high water spring tides	28 ,,
Depth at high water neap tides	21 ,,
Length of East side of Swing Bridge Wharf	240 ,,
Depth at high water spring tides	10 ,,
Depth at high water neap tides	8 ,,
Length of Wet Dock Wharfs	1,040 ,,
Width of entrance to Wet Dock	58 ,,
Depth at high water spring tides	28 ,,
Depth at high water neap tides	21 ,,
Length of Waterloo Wharf	250 ,,
Depth at high water spring tides	10 ,,

Continued

PORT GLASGOW—*continued.*

Harbour and Wharves—*continued.*

Depth at high water neap tides	8 ,,
Length of Quay Wharf	240 ,,
Depth at high water spring tides	21 ,,

Depth at high water spring tides	20 ,,
Depth at high water neap tides	18 ,,
Length of Patons Quay	460 ,,
Depth at high water spring tides	9 ,,
Depth at high water neap tides	7 ,,

Several cranes to lift up to 20 tons.

PORT TALBOT.

Port Talbot Dock.

Length of Dock	about 1¼ miles
Width of Dock	240 to 900 ft.
Length of Quayage	about 3,000 feet
Number of Jetties	10
Length of Lock	290 feet
Width of entrance	44 ,,
Depth of water over sill at ordinary spring tides	22½ ,,
Depth of water over sill at ordinary neap tides	13 ,,

Cranes to lift from 2 to 3 tons.
Staithes for shipment of coal—100 to 150 tons per hour.

PORTHCAWL.

Porthcawl Dock.

Water area of Dock	7½ acres
Width of Dock	340 feet
Length of Quayage	2,300 ,,
Width of entrance	55 ,,
Depth of water over sill at ordinary spring tides	26 ,,
Depth of water over sill at ordinary neap tides	16 ,,
Water area of basin	1½ acres
Width of Basin	204 feet
Length of Quayage	900 ,,
Width of entrance	62 ,,
Depth of water over sill at ordinary spring tides	26 ,,
Depth of water over sill at ordinary neap tides	16 ,,

Ballast cranes capable of discharging 15 tons per hour.
Cranes to lift from 15 to 20 tons.
Staithes for shipment of coal—150 to 200 tons per hour.

PORTHLEVEN.

Length of Inner Harbour	420 feet
Width of do.	284 ,,
Length of Quayage	1,000 ,,
Width of entrance	30 ,,
No. of Jetties	2
Depth of water over sill at ordinary spring tides	16 ,,
Depth of water over sill at ordinary neap tides	10 ,,

PORTISHEAD.

Portishead Dock.

Length of Dock	1,800 feet
Width of Dock	300 ,,
Length of Quayage	1,800 ,,
Length of Lock	444 ,,
Width of Lock	66 ,,
Depth of water over sill at spring tides	34 ,,
Depth of water over sill at neap tides	24 ,,

3 steam cranes.

PORTMADOC.

Tidal Harbour.

Length of Quayage, North Side	3,031 feet
Length of Quayage, South Side	1,632 ,,
Depth of water at high water	13 ,,
Depth of water at low water	nil

PORTREATH.

No. 1 Dock.

Length of Dock	195 feet
Width of Dock	105 ,,

No. 2 Dock.

Length of Dock	279 feet
Width of Dock	95 ,,

No. 3 Dock.

Length of Dock	180 feet
Width of Dock	95 ,,
Width of entrance (outer)	29 feet
Width of entrance (inner)	26 ,,
Depth of water at spring tides	17 ,,
Depth of water at neap tides	10 ,,

There are 3 Jetties in these docks.
The harbour is a tidal one.

PORTSMOUTH.

Inner Camber.

Length of Quayage	1,098 feet
Width of entrance to Camber	34 ,,
Depth of water over sill at ordinary spring tides	15 ,,
Depth of water over sill at ordinary neap tides	12 ,,

2 stationary hand cranes to lift 6 and 3 tons respectively.

Outer Camber.

Length of Quayage	1,155 feet
Depth of water at ordinary spring tides	17 ,,
Depth of water at ordinary neap tides	14 ,,

The entrance of this dock is open to Portsmouth harbour, and is about 180 feet wide.
1 stationary hand crane to lift 5 tons.
Rise and fall of tides average 10 feet.

QUEENSTOWN.

Length of Quay	600 feet
Depth at high tide	37 ,,
,, low tide	24 ,,

Several private quays, and a quay for discharging colliers with a depth of 16 to 17 feet at high tide, and a hand crane capable of lifting about 7 tons.

RAMSGATE.

Inner Harbour.

Water area	12 acres
Length of Quayage	2,100 feet
Width of entrance, No. 1	40 ,,
,, ,, No. 2	30 ,,
Depth over sill at spring tides	15 ,,

4 hand cranes capable of lifting from 5 to 6 tons.

Outer Harbour.

Water area	35 acres
Length of Quayage	1,200 feet
Width of entrance	200 ,,
Depth of water at spring tides	20 ,,
,, ,, low tides	5 to 6 ,,

ROCHESTER.

South-Eastern Railway Company's Basin.

Length of Basin	500 feet
Width of Basin	29 ,,
Depth of water	15 ,,

There are numerous wharves in the Medway between Rochester and Chatham.
The rise and fall of tide is 16 feet.

ROTHESAY.

Length of Quayage	600 feet
Depth of water at low water	9 to 14 ,,
Range of tides	9 ,,

Inner Harbour (Tidal).

Can receive vessels up to 12ft. draught.
Cranes to lift up to 4 tons.

RUNCORN.

Tidal Dock, Old Dock, Alfred Dock, and Fenton Dock.

(*Lower Line.*)

Water area	about 7 acres
Length of Quayage	4,500 feet
Depth of water (constant)	20 ,,

Continued

RUNCORN—*continued.*

Arnold Dock, Francis Dock, and Old Basin.

(Upper Line.)

Water area	about 8 acres
Length of Quayage	5,000 feet

The Tidal Lock acts as a Lock to pass vessels to and from the tideway.

Width of entrance	50 feet
Depth of water over sill at spring tides	19 ,,
Depth of water over sill at neap tides	8 ,,

ST. ANDREW'S.

St. Andrew's Harbour.

Inner Harbour.

Length of Harbour	560 feet
Width of Harbour	134 ,,
Length of Quayage	743 ,,
Width of Lock	29½ ,,
Depth of water over sill at high water	9 ,,

Outer Harbour.

Length of Harbour	228 feet
Width of Harbour	151 ,,
Length of Quayage	371 ,,
Width of entrance	about 80 ,,
Depth of water at high water	9 ,,
Depth of water at low water	nil

SCARBOROUGH.

Scarborough Harbour.

Length of Quayage	4,050 feet
Depth at low water	nil
,, ordinary high water	13 ,,

1 ballast or cargo crane capable of discharging 20 to 30 tons per hour.

SEAHAM HARBOUR.

North Dock.

Water area	3 acres
Width of entrance	34 feet

South Dock.

Water area	2½ acres
Width of entrance	33 feet
Length of Lock	75 ,,
Width of entrance	100 ,,
Depth of water over sill at ordinary spring tides	17½ ,,
Depth of water over sill at ordinary neap tides	13½ ,,

Quays extend nearly all round above docks.

SHARPNESS.

Sharpness Dock.

Length of Dock	2,200 feet
Width of Dock 430 feet, narrowing to	200 ,,
Length of Quayage	4,000 ,,
Number of Jetties (for Petroleum trade)	1

SHARPNESS—*continued.*

Sharpness Dock—*continued.*

Length of Lock	320 ,,
Width of entrance	60 ,,
Depth of water over sill (constant)	24 ,,
Length of Tidal Basin	546 feet
Width of Tidal Basin	300 ,,
Length of Quayage	1,100 ,,
Width of entrance	60 ,,
Depth of water over sill at ordinary spring tides	26 ,,
Depth of water over sill at ordinary neap tides	18 ,,

2 ballast cranes, capable of discharging 100 tons per hour.
Other cranes (steam and hand) lifting up to 10 tons.
2 high level coal staithes capable of shipping 200 tons per hour.
The ship canal (without locks) between Sharpness and Gloucester, a distance of 16 miles, has a constant depth of 18 feet in the centre, and is available for the navigation of vessels up to 230 feet long, 33 feet beam, and drawing from 13 to 16 feet, according to length and beam.

SHIELDS (NORTH).

Corporation Quay.

Length (1,384 feet used solely for fishing purposes)	1,604 feet
Depth of water at ordinary spring tides (high)	29 ,,
Depth of water at ordinary spring tides (low)	14 ,,
Depth of water at ordinary neap tides (high)	25 ,,
Depth of water at ordinary neap tides (low)	18 ,,

2 steam cranes capable of discharging 10 tons each per hour, and one hand-crane to lift 5 tons.

SHIELDS (SOUTH).

Corporation Quay.

Length of Quayage	210 feet
Depth of water at ordinary spring tides (high)	17 ,,
Depth of water at ordinary spring tides (low)	nil

1 portable steam ballast crane capable of discharging 20 tons per hour, and 1 hand crane to lift half a ton.

SHOREHAM.

Royal George Quay.

Length of Quay	300 feet
Depth of water at spring tides	13 ,,
Depth of water at neap tides	9 ,,

Free Wharf.

Length of Quay	460 feet
Depth of water at spring tides	14 ,,
Depth of water at neap tides	10 ,,

1 portable hand crane to lift 1½ tons.

Ringston Quay.

Length of Quay	1,800 feet
Depth of water at spring tides	19 ,,
Depth of water at neap tides	15 ,,

1 steam crane to lift 30 cwt.

SHOREHAM—*continued.*

Southwick Quays.

Length of Quay	1,000 feet
Depth of water at spring tides	14 ,,
Depth of water at neap tides	10 ,,

Southwick Canal Quays.

Length of Quay	300 feet
Depth of water at spring tides	12 ,,
Depth of water at neap tides	8 ,,

These quays are shut off from sea by tidal gates, entrance 25 feet wide.

Fishersgate Quays.

Length of Quay	2,170 feet
Depth of water at spring tides	17 ,,
Depth of water at neap tides	13 ,,

Rise and fall of tides average 16 feet.

SILLOTH.

Silloth Dock.

Length of Dock	650 feet
Width of Dock	400 ,,
Length of Quayage	2,000 ,,
Length of Lock	125 ,,
Width of entrance	60 ,,
Depth of water over sill at ordinary spring tides	24 ,,
Depth of water over sill at ordinary neap tides	18 ,,

Cranes to lift from 1½ to 25 tons.
1 staithe for shipment of coal—80 to 100 tons per hour.

Length of Basin (tidal)	600 feet
Width of Basin	300 ,,
Length of Quayage	1,600 ,,
Width of entrance	95 ,,
Depth of water at high water ordinary spring tides	24 ,,
Depth of water at high water ordinary neap tides	18 ,,
Depth of water at low water ordinary neap tides	2 ,,

3 hydraulic cranes (stationary) to lift from 2 to 6 tons.
1 staithe for shipment of coal—80 to 100 tons per hour.

SLIGO.

Custom House Quay.

Length of Quay	1,335 feet
Depth at high water	10 ,,

Ballast Quay.

Length of Quay	2,250 feet
Depth at high water	19 ,,
Depth at low water	8 ,,

SOUTHAMPTON.

Southampton Dock.

Water area	16 acres
Length of Quayage	2,720 feet
Number of Jetties 2	each 200 ,,
Length of Lock	180 ,,
Width of entrance	150 ,,
Depth of water at ordinary spring tides	31 ,,

Continued

SOUTHAMPTON—*continued.*

Southampton Dock—*continued.*

Depth of water at ordinary neap tides	27 ,,
Water area of close dock	10 acres
Length of Quayage	2,980 feet
Width of entrance	56 ,,
Depth of water over sill at ordinary spring tides	29 ,,
Depth of water over sill at ordinary neap tides	25 ,,
Length of Quayage along Itchen	1,780 ,,
Depth at low water spring tides	20 ,,
Number of Jetties 3	each 200 ,,

A large number of ballast cranes to lift from 3 to 15 tons.
3 steam sheers to lift from 20 to 100 tons.

Town Quay.

Length of Quayage	6,072 feet
Depth of water at ordinary spring tides	27 ,,
Depth of water at ordinary neap tides	25 ,,

Cranes to lift from 2 to 12 tons.

STOCKTON.

Stockton Corporation Wharf.

Length of Wharf	600 feet
Depth of water at high water	24 ,,
,, ,, low water	12 ,,

There are several other wharves at Stockton owned by private firms.

STRANRAER.

Eength of Quayage about	840 feet
Depth of water at ordinary spring tides	12½ ,,
Depth of water at ordinary neap tides	8½ ,,

STROMNESS.

Public Pier.

Quayage	200 feet
Depth of water at spring tides	10 to 12 ,,
,, ,, neap tides	6 to 8 ,,
Accommodation at end of pier	90 ,,
Depth of water at spring tides	16 to 18 ,,
,, ,, neap tides	10 to 12 ,,

There are also 7 private piers with a quayage of 600 ft.

SUNDERLAND.

Hudson Docks.

Length of Docks	2,800 feet
Width of Dock	420 ,,
Length of Quayage	8,710 ,,
Number of Jetties	6

Hendon Dock.

Length of Dock	800 feet
Width of Dock	600 ,,
Length of Quayage	2,800 ,,

SUNDERLAND—*continued.*

North Basin.

Length of Basin	400 feet
Width of Basin	240 ,,
Length of Quayage	800 ,,

Sea Lock.

Length of Lock	480 feet
Width of Lock	90 ,,
Width of entrance	65 ,,
Sea entrance	60 ,,
Depth of water over sill at ordinary spring tides	25½ ,,

Cranes capable of lifting from 2 to 60 tons.
19 coal spouts and drops capable of shipping 15,000 tons of coal per day.

Wearmouth Dock.

Length of Dock	550 feet
Width of Dock	490 ,,
Width of entrance	50 ,,
Depth of water over sill at high tide	17 ,,
Depth of water over sill at low tide	6½ ,,

Quayage extends nearly all round the dock.
1 jetty.
Cranes to lift up to 5 tons.
Palmer's Hill Engine Works have a quay 445 feet long, and cranes to lift up to 6 tons.

SWANSEA.

Prince of Wales Dock.

Length of Dock	2,310 feet
Width of Dock	500 ,,
Length of Quayage	6,130 ,,
Length of Lock	500 ,,
Width of entrance	60 ,,
Depth of water over sill at ordinary spring tides	32 ,,
Depth of water over sill at ordinary neap tides	24 ft. 6 in.
Length of Basin (under construction)	450 feet
Width of Basin	250 ,,
Length of Quayage	800 ,,
Width of entrance	153 ,,
Depth of water over sill at ordinary spring tides	32 ,,
Depth of water over sill at ordinary neap tides	24 ft. 6 in.

Hydraulic ballast cranes capable of discharging 200. tons per hour.
16 other cranes, and 4 staithes for shipment of coal.

North Dock.

Length of Dock	1,890 feet
Width of Dock average	280 ,,
Length of Quayage	6,000 ,,
Length of Lock	160 ,,
Width of entrance	56 ,,
Depth of water over sill at ordinary spring tides	23 ,,
Depth of water over sill at ordinary neap tides	15 ft. 3 in.
Length of Basin	500 feet
Width of Basin	220 ,,
Length of Quayage	1,210 ,,
Width of entrance	60 ,,
Depth of water over sill at ordinary spring tides	26 ,,
Depth of water over sill at ordinary neap tides	18 ft. 3 in.

2 cranes capable of discharging 60 tons per hour.
Other cranes to lift from 1 to 1½ tons.
Staithes for shipment of coal—80 to 100 tons per hour.

SWANSEA—*continued.*

South Dock.

Length of Dock	1,540 feet
Width of Dock	360 ,,
Length of Quayage	5,100 ,,
Length of Lock	300 ,,
Width of entrance of Lock	60 ,,
Depth of water over sill at ordinary spring tides	23 ,,
Depth of water over sill at ordinary neap tides	15 ft. 3 in.

2 quays, each 600 feet long, for discharging and loading at all states of tide.
Transhipment quay, 300 feet long.
Coaling jetty, with 4 30-cwt. moveable hydraulic cranes for discharging coal; also coal tips.
In these docks there are 59 hydraulic travelling cranes, to lift 1½ tons each; also a floating steam crane "Leviathan," to lift 50 tons.
Vessels may enter and leave the Tidal Basin at any state of the tide.

TROON.

Tidal Basin.

Water area	2 acres
Length of Quayage	1,100 feet
Depth of water over sill at high water spring tides	20 ,,
Depth of water over sill at high water neap tides	18 ,,

Outer Harbour.

Water area	19 acres
Length of Quayage	4,140 feet
Depth of water at high water ordinary spring tides	19 to 23 feet
Depth of water at low water neap tides	10 to 14 ,,

Inner Harbour.

Water area	about 18 acres

Several ballast cranes, each capable of discharging 45 tons per hour.
Other cranes to lift up to 75 tons.

ULVERSTON.

Ainslie's Pier.

Length of Quayage	600 feet
Depth of water at high spring tide	14 ft. 6 in.
,, ,, high neap tide	7 feet
,, ,, low water	nil

2 steam cranes to lift 3 tons.

Ulverston Canal.

Length of Canal	1¼ miles
Length of Quayage in Canal	370 feet
Length of Lock	105 feet
Width of Lock	25 ,,
Length of Quayage in Lock	210 ,,
Depth of water, winter months	13 ,,
,, summer months	8 ,,

1 hand crane to lift 3 tons.

WARKWORTH.

Warkworth Harbour.

Length of Quayage	850 feet

1 portable steam crane to lift 3 tons and discharge 20 tons of ballast per hour.
4 coal staithes, 100 tons per hour.

WARRENPOINT.

Town Dock.

Length of Dock	500 feet
Width of Dock	260 ,,
Length of Quayage	960 ,,
Depth of water at ordinary spring tides	15 to 17 ,,
Depth of water at ordinary neap tides	10 to 12 ,,

Victoria Dock.

Length of Dock	380 feet
Width of Dock	370 ,,
Length of Quayage	650 ,,
Depth of water at ordinary spring tides	15 ,,
Depth of water at ordinary neap tides	10 ,,

2 steam cranes capable of discharging 40 tons per hour.

WATERFORD.

Length of Quayage	7,000 feet
20 Pontoons (average length)	100 ,,
Depth of water at pontoons at low water spring tides from	14 to 22 ,,

Cranes to lift up to 8 tons.

WESTONPOINT.

Delamere Dock.

Length of Dock	380 feet
Width of Dock	250 ,,
Width of entrance	50 ,,
Depth of water over sill at ordinary spring tides	19 ,,
Depth of water over sill at ordinary neap tides	13 ,,
Length of Quayage for Delamere and Tollemache Docks	1,000 feet

4 hydraulic cranes to lift 2 tons.

Tollemache Dock.

Length of Dock	420 feet
Width of Dock	180 ,,
Width of entrance	40 ,,

2 moveable hydraulic cranes.
1 jetty with steam crane.

WESTONPOINT—*continued.*

Old Basin.

Length of Basin	880 feet
Width of Basin	120 ,,
Width of entrance	40 ,,
Length of Quayage	500 ,,

New Basin.

Length of Basin	540 feet
Width of Basin	120 ,,
Width of entrance	34 ,,
Length of Quayage	500 ,,
Depth of water on Basin sills at ordinary spring tides	14 ,,
Depth of water on Basin sills at ordinary neap tides	8 ,,

1 hand crane to lift 10 tons.
Quay along the river 3,000 feet long; dry at low water, and varies from 10 to 16 feet at high water.

WEYMOUTH.

Quayage alongside Tidal Harbour	2,200 feet
Depth of water at ordinary spring tides	16 ,,
Depth of water at ordinary neap tides	12 to 13 ft.

Vessels up to about 400 tons can be berthed alongside quay.
Rise and fall of tides 7 feet.
2 steam cranes, each to lift 1 ton.

WHITBY.

Tidal Harbour.

Length of Quayage	2,000 feet
Depth at ordinary high water	15 ,,
Depth at low water	nil

2 cranes to lift from 5 to 10 tons.

WHITEHAVEN.

Queen's Dock.

Length of Dock	560 feet
Width of Dock	330 ,,
Length of Quayage	1,500 ,,
Length of Lock	80 ,,
Width of entrance	50 ,,
Depth of water over sill at ordinary spring tides	20 ,,
Depth of water over sill at ordinary neap tides	14 ,,

Cranes to lift from 2 to 10 tons.
2 hurries (drop) for shipment of coal—100 tons per hour.
Staithes (portable) for shipment of ore and pig iron—100 tons per hour.

Length of Basin (tidal)	470 feet
Width of Basin	330 ,,
Length of Quayage	1,400 ,,
Width of entrance	60 ,,
Depth of water at high water, ordinary spring tides	21 ,,
Depth of water at high water, ordinary neap tides	15 ,,
Depth of water at low water, ordinary neap tides	nil

2 manual cranes (portable) to lift 1 ton.
2 staithes for shipment of coal—100 tons per hour.

Continued

WHITEHAVEN—*continued.*

Tidal Harbour (Inner).

Length of Quayage	3,900 feet
Timber slip	1
Depth of water at high water, ordinary spring tides	15 to 18 ft.
Depth of water at high water, ordinary neap tides	9 to 12 ft.

Cranes to lift up to 3 tons.
4 staithes for shipment of coal—100 tons per hour.

Tidal Harbour (Outer).

Length of Quayage (occasionally used)	1,500 feet
Cattle slip	1
Depth of water at high water, ordinary spring tides	21 to 26 ft.
Depth of water at high water, ordinary neap tides	15 to 20 ft.

1 manual crane to lift 1½ tons.

WISBEACH.

Nene Parade.

(East side of river.)

Length	5,280 feet

West Parade.

(West side of river.)

Length	5,280 feet
Depth of water at high water	15 to 25 ft.
,, ,, low ,,	nil

WORKINGTON.

Lonsdale Dock.

Length of Dock	600 feet
Width of Dock	300 ,,
Length of Quayage	1,600 ,,

Lonsdale Dock—*continued.*

Timber Slip	1
Length of Lock	80 ,,
Width of entrance	40 ,,
Depth of water over sill at ordinary spring tides	16 ,,
Depth of water over sill at ordinary neap tides	11 ,,

5 steam cranes to lift from 3 to 5 tons.
3 hurries (drop) for shipment of coal—80 tons per hour.
Staithes for shipment of ore and pig iron—80 tons per hour.

Tidal Harbour and River Frontage.

Length of Quayage	2,800 feet
Depth of water at high water, ordinary spring tides	12 to 18 ft.
Depth of water at high water, ordinary neap tides	7 to 13 ft.

2 steam cranes to lift from 2 to 3 tons.
3 staithes for shipment of coal—80 tons per hour.

The following EXTRACTS from the

"INSTRUCTIONS TO LLOYD'S AGENTS"

Have been printed by the Committee of Lloyd's for the information of

HER MAJESTY'S CONSULS AND REPRESENTATIVES, COMMANDERS OF VESSELS, AND OTHERS.

In dealing with the following instructions it is essential that Lloyd's Agent should understand that, according to English Law, the master of a vessel has, as Agent of the shipowner, control over both ship and cargo, and is responsible for both. Nothing less than a special power can take away this control over the property confided to his charge; but the master can appoint an Agent, and it is presumed that he will, on behalf of the assured or their representatives, readily avail himself of the assistance of an Agent who is specially appointed by Lloyd's, and whose co-operation will facilitate the settlement of loss or average with the underwriters.

In every act of interference, whether by advice or otherwise, the Agent is not to be considered as the representative of the underwriters upon any particular policy, except when he is specially instructed by such underwriters to that effect, but rather as a person whose duty it is, from the nature of his appointment, to protect underwriters from fraud, negligence, or mismanagement in the mode of treating property in peril or under average.

Telegraphic.—The special attention of the Agent is called to the necessity of telegraphing any report of the loss of a vessel or a casualty at once, and direct to Lloyd's. The Committee desire to impress very strongly the inconvenience and loss that may arise from a casualty not being reported a once. Where there is no telegraph the news should be transmitted by the quickest method.

War.—In the event of War, actual or impending, the Agent will at once telegraph the movements of all men-of-war and privateers likely to affect the interest of underwriters.

Shipping Lists.—The Agent will furnish, on the forms supplied by the Secretary, and in accordance with the instructions received from him from time to time, prompt and regular advices of the arrival, sailing, and speaking of vessels. He should also send the names of vessels arriving with damage, or having damaged goods on board which have been surveyed under his superintendence; and the names of such vessels with damaged goods as have not been surveyed under his superintendence, and the reasons that may have prevented him from attending the survey of the whole or any part of the damaged goods in each cargo. Supplies of shipping-forms and envelopes can be had upon application to the Secretary of Lloyd's.

General Intelligence.—In addition to the above, the Agent is requested to keep the Committee informed on all points that he may consider of importance to underwriters.

The Agent is requested to keep the Committee informed upon all matters that he may consider o importance to Lloyd's, relating to claims, the over-loading of ships, or any other subject. He is also requested to furnish information with reference to any misconduct of masters of vessels.

The Agent should report when any vessel sails or arrives with deck cargo, or when she appears improperly laden for the voyage.

Abandonment.—In no case is the Agent to accept an abandonment of either ship or cargo as the representative of the underwriters; he must in all cases leave the persons who abandon to act upon their own responsibility.

Total Loss.—In case of shipwreck, the Agent will take charge of the property in the absence of the master or owner of the vessel or goods, or any of their representatives or any legal authority, and he will make such arrangements for its protection and preservation as he may consider expedient. He will also give immediate advice of the circumstances to the assured, and follow their instructions in all cases where he can obtain them.

Surveyors.—Lloyd's Agent, if called upon to survey a ship, shall in all cases employ the Surveyor to Lloyd's Register of British and Foreign Shipping, if such an officer is stationed at or near the port; failing him, he will select the most competent person available, and he will take care that the Report of the Surveyor so selected shall be made on the same form as that attached to these Instructions.

Attendance of Master.—All surveys should be attended by the master of the vessel, who should also sign the certificate of survey. In case the master refuses to attend, or is prevented from attending, the Agent will note the fact on the certificate, and the reason of the master's absence.

Bottomry.—Particulars of Bottomry and Respondentia Bonds should in all cases be reported to the Committee. The raising of necessary funds by these means should not be resorted to unless credit cannot otherwise be obtained, and the owner should in all cases be previously communicated with, either by letter or by telegraph. The sale of vessels or cargoes at ports of arrival under these bonds should also be reported.

Auctions.—In cases where combination amongst buyers is likely to defeat the integrity of a public sale, the Agent should see that sealed tenders are advertised for, if such a course can be legally pursued.

Auctioneers.—With a view to prevent frauds upon underwriters at public sales, the Agent should endeavour, whenever a sale is unavoidably necessary, to have a voice in the appointment of the auctioneer, and he should see that due publicity of the sale is given in each case.

Stranding.—When a vessel is in distress, or on shore within the limits of his district, it is the duty of Lloyd's Agent to offer his services to the master.

Condemnation.—When it is proposed to condemn as unseaworthy a vessel that has sustained damage, the Agent is to use every means in his power to prevent such condemnation, unless it is evident that the vessel can only be repaired as a seaworthy ship at a cost exceeding her value after such repairs; but it is to be borne in mind that the cost of complete reinstatement as a ship of the same class and condition as before the accident, and capable of carrying on her original cargo, is not the test of the propriety of a condemnation; nor is it necessary that the repairs shall be done at the port of distress.

If repairs at the port of distress would exceed the value of the vessel, but she can either with or without partial or temporary repairs, be safely sent home, or to some other repairing port, and there repaired at a total expense not exceeding her value when repaired, it is the duty of the master to take that course.

The principle laid down in the English Law Courts is that a vessel can only be considered a total loss when to repair her as a useful ship of any sort would be a waste of money.

In case a vessel cannot in any way be made seaworthy except at a cost exceeding her value when so repaired, and her condemnation therefore becomes unavoidable, it is the duty of the Agent to investigate carefully and to distinguish whether such condemnation is caused by perils of the sea or by any natural defect or decay.

Surveyors and Repairs.—In the event of repairs being necessary to enable a ship to proceed on her voyage, the Agent will see that properly qualified men are appointed surveyors.

It is necessary that the surveyors should distinguish as far as possible in their survey and estimates between the damage sustained during the voyage in which the vessel is actually engaged and the damages or defects existing prior thereto, and which are chargeable to the owners.

The surveyors should also in every case be requested to state in their survey—

1. The probable cost of complete repair at the port of distress, so as to enable the ship to carry on her cargo.
2. If she cannot be repaired there within her value, they should state whether, by means of partial or temporary repair, she can be made fit to proceed home or to another port for repairs, and the probable total cost of temporary and permanent repairs if such a course is adopted. Also whether she can carry any and what cargo while proceeding for repairs.
3. If she cannot, either by repairing at the port of distress, or elsewhere, be put into the same condition as before the casualty at a cost within her value, they should state whether she can, nevertheless, by means of less extensive repairs, be made seaworthy, and fit to carry cargoes of any and what description, at a cost less than her value when so repaired, and they should give an estimate of the cost of repairs of this nature.

Instructions to report on these heads should be included in the document appointing the surveyors.

Documents.—The necessary documents in cases of claim against the underwriters on the ship are :—

1. The Protest, which should be compared with the Log Book and certified by the Agent, who should report any discrepancies that may be discovered between them.
2. Surveys, describing distinctly the cause of damage, and containing particulars mentioned in the paragraph headed "Surveyors and Repairs."
3. General account of disbursements.
4. Vouchers or receipted bills included in the general account, and discount or deduction of any sort, when allowed.
5. Rate of Exchange.
6. The Bottomry Bond (when there is one).
7. The value of the ship and the certificate, according to Form B in the Schedule.

Survey.—Lloyd's Agent, if called on by the consignees of a cargo to certify damage, will only act as a surveyor when his own experience of the class of goods to be surveyed enables him to pronounce an accurate opinion. But when he does not act himself, he will appoint properly qualified surveyors, whose signatures shall be authenticated by Lloyd's Agent. Care should be taken that the survey is conducted in accordance with the following general instructions :—

1. When notice of damage is given before cargo is discharged, a special survey should be held on the hatches of the vessel, and particularly with reference to the stowage and dunnage.
2. Damage by sea water during the voyage should be carefully distinguished from damage arising from other causes, as, for example, from bad stowage or packing, vermin, pilfering, inherent causes, or from the goods having been exposed to rain or damp before shipping or after discharging.

The Agent should personally satisfy himself that these instructions are carried out.

Survey on Landing.—The survey of damage should take place as soon as the goods are landed, and with this object the Agent should immediately offer his services to the consignee. In the event of any delay taking place before the Agent's services are called in, the Agent should not refuse a survey, but should grant a certificate, with the date of the arrival of the vessel, and the date and place of survey prominently noted on it, and the Agent should state if any unavoidable cause has prevented an earlier survey being held.

Sound to be Separated from Damaged.—The Agent is to see that the sound portions of each package are separated from the damaged, and he will particularise the quantity of each in his certificate. In the event of the separation of the sound goods from the damaged not being assented to by the consignees, the Agent will notify their objections on his certificate.

Goods landed in Craft.—In all ports where it is necessary to discharge goods into lighters or craft, the Agent is required to ascertain whether the person in charge of such lighter or craft has demanded of the master or mate of the vessel discharging, a certificate, or himself given a receipt, expressing any apparent damage or defects in the goods delivered over to him; and the Agent is to make a note of the same upon his survey.

Deck Loads.—The Agent will ascertain and notify whether any and what goods were laden on deck.

Sale at an Intermediate Port.—In the case of a vessel putting into an intermediate port, the Agent should protest against the sale of any part of the cargo unless absolutely necessary from its perishable condition.

In the case of a vessel being wrecked short of its destination, the Agent will offer to co-operate with the master or other representatives of the assured in procuring a conveyance for the cargo to its original destination in the best and most expeditious manner.

Sale to take place in Reasonable Time.—The sale should take place within a reasonable time from the period of landing, and the usual certificate of sound value should give the market value of the goods at the date of sale.

Exaggerated Valuations.—Care should be taken to guard against exaggerated valuations of sound goods; and if part of the goods arrive in a sound state, and are sold, a certified copy of the sale of such sound part should always be furnished.

Compromise.—The Agent may agree to an allowance being made to the consignees of goods damaged by sea water where the expenses for notarial documents, advertising, and other charges attendant upon sale by auction, would be disproportionate to the damage sustained and to the probable advantages to be gained by competition; but when the Agent exercises this power, he is always to append to his certificate of compromise that it is subject to the conditions of the policy of insurance on the goods in question, together with a certificate of the sound value of the goods.

The extent to which the above power may be exercised must be left to the discretion of the Agent, for whose guidance, however, it may be mentioned that, save under exceptional circumstances, which should be explained in the certificate, £30 is the limit of the aggregate allowances that should be made on any one consignment without obtaining the consent of the underwriters to dispense with public sale. Where the Agent has reason to fear a combination among the buyers at an auction, and therefore recommends a compromise of a larger amount than the above, and in all cases of doubt, he should communicate by telegraph with the Committee, who will at once endeavour to obtain specific instructions from the underwriters interested.

Documents.—The documents required by the underwriter for the adjustment of average on goods damaged by sea water are as follows:—

1. The Protest, which should be compared with the Log Book and certified by the Agent, who should report any discrepancies that may be discovered between them.
2. Survey on board and certificate of stowage.
3. Survey on goods landed, stating clearly cause and nature of damage; if the damage does not arise from sea water, the same should be certified, as well as its probable cause. The survey should also state the mode in which the goods were packed; and if in tin or zinc, whether properly soldered; and in cases of claim for leakage of liquids, the condition of the packages on landing, and whether the same were of good construction, and fit for the voyage.
4. Custom House Certificate of rebate of duties on account of damage.
5. Certificate of the market price or value of the goods at the time of sale for cash if they had arrived free from damage, or certificate of the actual sale of the sound, which is always to be preferred.

6. Account sales of damaged goods duly certified and showing whether sold in bond or duty paid, and for cash or credit; and if for credit, state what deduction for discount should be made to reduce the proceeds of sales to cash.
7. The Agent to certify on his certificate which of the charges described in the documents are extra in consequence of the damage, and if sold by auction whether any and what portion of the auctioneer's commission is returned, also if any and what charges are paid by the buyers of the goods.
8. In cases of damage to articles usually sold by weight, it is desirable, where practicable, to forward a certificate of the weight of the sea damaged portion, also the total gross and net landing weight of the sound portion of each mark separately.

The Agent must on no account certify as to the correctness or incorrectness of accounts, nor as to whether they are fair and reasonable, but must confine his remarks to stating whether the persons who prefer the charges are worthy of confidence or otherwise.

Capture of Neutral Goods in Enemies' Vessels.—If the country in which the Agent resides is at war with any other country, and a captured vessel of that other country should be brought into any port within the Agent's district, he should watch the proceedings of the Prize Court, and endeavour to prevent any sale of the cargo either before or after the condemnation of the vessel as lawful prize.

In reporting the circumstance to Lloyd's, he should point out particularly what steps it will be necessary for the owners of the goods to take, whether in any local Marine Court or in the Central Court of Prize, to obtain possession of their goods, and should specify the documents which the Court will require for establishing the ownership of the goods, and for proving that the owners belong to a neutral country.

Property in Peril.—When a vessel is in distress or on shore within the limits of his district, it is the duty of Lloyd's Agent to make such arrangements with the master for recovering, saving, or preserving the property as may be deemed expedient. It is repeated that the Agent, by this instruction, is not empowered to accept an abandonment of either ship or cargo.

Salvage.—In all cases where salvage or remuneration is claimed for assistance rendered to vessels, the Agent should attend the meetings of commissioners, magistrates, or other persons legally authorised to determine the amount, in order to rebut, by the evidence of the master and crew, any exaggerated statements on the part of the salvors.

Salvage for Recapture.—It has frequently happened, when a vessel has been captured and recaptured, that instead of the salvage being paid, and the vessel proceeding to her port of destination, both vessel and cargo have been sold for the payment of salvage, and the loss of the underwriters been thereby much increased. It is therefore incumbent on the Agent to endeavour, upon every occasion, to take such steps as appear requisite for an adjustment of the salvage, so that the vessel may proceed with her cargo to her port of destination.

Salvage Proceeds.—In the event of salvage proceeds of either ship or cargo passing into the hands of the Agent, he is at once, if there is no owner or agent of the owner on the spot to receive them, to remit the same, in bank bills if possible, together with the documents required for the division of the amount, to the Committee of Lloyd's, who will take the necessary steps to distribute the proceeds amongst the persons interested.

Average Statements.—The Agent is not to make up or sign any statement of average, either general or particular, but should leave any claim to be adjusted between the underwriters and the assured upon the documents furnished.
